SUMMARY

A highly motivated and detail-oriented fresher with a strong foundation in Python programming, web development, and data analysis. Proficient in Python, SQL, HTML, CSS, JavaScript, and experienced with frameworks such as Django and Flask. Familiar with machine learning concepts and data visualization using Power BI. Eager to apply my knowledge in a professional setting, contribute to innovative projects, and continue learning in the fields of software development and data analytics. Seeking an opportunity to grow as a Python Developer while adding value to the team through my technical skills and problem-solving abilities.

WORK EXPERIENCE

Silan Software Pvt Ltd	Jan 2024 - Jun 2024
Internship Trainee	
Developed and maintained Python scripts to automate data processing tasks, improving efficiency.	
Utilized Python libraries such as Pandas and NumPy for data analysis, enabling better insights for decision-making.	
Assisted in writing and optimizing SQL queries to retrieve, update, and manage data from relational databases.	
Collaborated with the data team to build reports and dashboards by integrating Python with SQL databases.	
Conducted data cleansing and validation tasks using SQL to ensure data quality and accuracy.	
Gained hands-on experience in relational database management systems (RDBMS) and data extraction techniques.	

EDUCATION

Parala MaharajaEngineering College,Berhampur	Jul 2017 - Aug 2021
B.Tech in Mechanical Engineering - 7.57	
E-TECH Residential College,Dhenkanal	April 2014 - May 2016
Associate in Science - 60%	

PROJECT

Creating My Own Portfolio Website.	May 2024-June 2024
- Introduces the visitor to you and your portfolio. - Provides detailed information about your background, skills, and interests. - Showcases your work, including detailed descriptions of each project. - Includes a formthat allows visitors to get in touch with you.	
Library Management System	April 2024-May 2024
- Managing Book Collections. - Handling Book Landing. - Handling Book Returns and User Interactions. - Data Encapsulation and Management.	

- Tools: Python & its Library,MySQL,Matplotlib,Seaborn,Sckitlearn frameworks,Jupiter notebook
- Responsibilities:
- Developed a machine learning model using Python and scikit-learn to predict customerpurchase behavior
- based on historical data. Utilized MySQL to manage and analyze data, which helped identify key trends and boost prediction
- accuracy.
- Improved model performance through statistical analysis and testing, resulting in a 15% increase in
- accuracy.

SKILLS

- | | |
|--------------|--------------------|
| • Python | • React.js |
| • MySQL | • Django |
| • HTML | • Power Bi |
| • CSS | • Machine Learning |
| • JavaScript | |

CERTIFICATE

Python Fullstack Development
Data Analyst

Soft Skills

Problem Solving Skills ,Time Management, Teamwork and Collaboration, Adaptability and Willingness to Learn.
