EXPERIENCE

AWS TRAINEE

June 2024- July 2024

Persistant System

- Gained hands-on experience in deploying, managing, and scaling applications using AWS services such as EC2, S3, Lambda, and RDS.
- Assisted in designing and implementing cloud infrastructure solutions, focusing on security, cost optimization, and high availability.
- Worked with AWS CloudFormation to automate the deployment of infrastructure, ensuring consistent and efficient provisioning of resources.

PROJECTS

MediSync | Java, Springboot, HTML, CSS, Bootstrap

- Developed a **web-based hospital management system** for **patient registration, appointment booking, and medical record management**. Leveraged Firebase real-time database for efficient CRUD operations.
- Designed a **scalable backend** with **Spring Boot and MySQL**, implementing **RESTful APIs** for smooth communication.
- Integrated **CRUD operations** for patient data with **caching mechanisms** to enhance performance.
- Improved **security with role-based authentication** and optimized **UI/UX using Bootstrap** for a responsive interface.

EasyGrab | Java, SpringBoot, HTML, CSS, JavaScript, Thymeleaf, MySQL

- Managed customer data by enabling addition, updates, and deletions for seamless record maintenance.
- Tracked inventory items efficiently, including stock levels and pricing updates
- Streamlined order processing with creation, updates, and real-time status tracking.
- Secured system with role-based authentication and integrated MySQL with Thymeleaf for dynamic content rendering.
