PROFESSIONAL SUMMARY

Results-driven Python Developer with expertise in full-stack development, specializing in Python, Django, HTML, CSS, JavaScript, and MySQL. Adept at creating responsive and dynamic web applications, with a strong focus on back-end development, database management, and user experience. Proven ability to collaborate with cross-functional teams and deliver high-quality solutions in fast-paced environments.

SKILLS

- Programming Languages: Python, C, C++, Java
- Web Technologies: HTML5, CSS3, JavaScript, Tailwind CSS, Bootstrap
- Frameworks: Django, React.js
- Database: MySQL
- Version Control: Git, GitHub
- Tools & IDEs: Visual Studio Code, PyCharm, Jupyter Notebook

PROFESSIONAL EXPERIENCE

RSL Solution PVT LTD

Intern – Full Stack Developer | Aug 2023 – Jan 2024

- Developed a full-featured eCommerce website using Python, Django, HTML, CSS, and JavaScript.
- Implemented key features such as user authentication, product listings, shopping cart, secure payment integration, and order management.
- Optimized MySQL database for better performance and faster query execution.
- Gained hands-on experience in debugging, testing, and deploying web applications.

PROJECTS

Project 1 : E-Commerce Web Application

- Technologies: Python, Django, HTML, CSS, JavaScript, MySQL
- Description: Developed a responsive e-commerce web application that enables users to browse and purchase products online.
- Implemented user authentication, a comprehensive product catalog, and a secure checkout process.
- Designed an admin dashboard for efficient product and order management. Ensured scalability and maintainability using Django's robust framework.
- Key Achievements:
 - Enhanced user engagement through asynchronous content loading.
 - Streamlined shopping experience with a user-friendly interface.
 - Improved transaction security and order tracking functionality.

Project 2 : Real Estate Web Application

- Technologies: Python, Django, HTML, CSS, JavaScript, MySQL
- Description: Designed and developed a dynamic real estate web application that allows users to search, view, and inquire about properties.
- Implemented user authentication and property listing features, enabling users to filter searches by location, price, and other criteria, Improving user experience with instant feedback and loading.
- Key Achievements:
 - Created an intuitive interface for property listings and detailed views.
 - Developed a secure contact form for inquiries, enhancing communication between buyers and agents.
 - Enabled advanced search functionalities, increasing user engagement and satisfaction.

EDUCATION

Sambalpur University Institute of Information Technology Master in Computer Application	2021-2023
Vikash School of Business Management Bachelor of Computer Application	2018-2021
Bargarh Science Institute, Intermediate	2016-2018
George High School Schooling	2016

CERTIFICATIONS & TRAINING

- Python Programming & Django Development – PySpider
- Frontend Web Development (HTML, CSS, JavaScript)
