PROJECTS

Movie Recommendation system

SKILL-Python, BeautifulSoup4 library (bs4)

A movie recommendation system in Python using BeautifulSoup4 (bs4) .It is basically suggest movies to users based on their preferences. This system can scrape data from movie review websites IMDB and show when you choose the category of movie like Sad,Family,Thriller ect ..

Registration Form using python Tkinter

It is a registration form that allows an individual to sign up for something, such as an event, service, or website. It typically includes fields for the person to enter their personal and contact information, such as name, address, phone number, and email address. It may also include other information relevant to the registration process, The purpose of a registration form is to collect information from the registrant in order to process their request or application. the register data will collect through mysql data base.

SKILL-python Tkinter library , MySql data base

QR CODE SCANNER USING PYTHON (OPENCV)

You can take the QR code picture on your mobile and show the picture in front of your webcam. It correctly identifies the QR code that presents on your screen. And this program redirects you to a link hidden in the QR code. I use OpenCV , Numpy and pyzbar library in this project.

TECHNICAL SKILLS

PROGRAMMING LANGUAGE

PYTHON

DATA BASE

- ORACLE
- MYSQL

WEB TECHNOLOGY

- HTML
- CSS
- BOOTSTRAP
- JAVASCRIPT

LIBRARY

- NUMPY
- PANDAS
- TKINTER

AREA OF INTEREST

- Software Development - Web Development

ACHIEVEMENT

HACKATHON

SMART INDIA HACKATHON 2022

Participate in Internal Hackathon Conducted by SIH 2022.

2022

Department Topper in Graduation level

PIPLI COLLEGE,PURI

It is given by principal for secure Highest mark in Physics Department of Pipli College.

2021
