SUMMARY

Dedicated and detail-oriented software developer with hands-on experience in .NET, ASP.NET MVC, and SQL Server. Eager to contribute to a dynamic organization by applying strong technical skills and a passion for learning.

PROFESSIONAL EXPERIENCE

Software Developer(Internship) | Logarc Solutions

Feb-2024-Dec 2024

- Developed and maintained web applications using .NET framework and C#.
- Implemented server-side logic and integrated with databases using Entity Framework and Dapper.
- Created and managed MVC architecture, ensuring clear separation of concerns.
- Developed responsive web interfaces using Razor views, HTML, CSS, and JavaScript.
- Designed and optimized SQL queries, stored procedures, and triggers in SQL Server.
- Participated in code reviews, debugging, and troubleshooting to enhance application performance.
- Worked with clients to understand their needs and provided technical help to make sure the project met their goals.

TECHNICAL SKILLS

- **Programming Languages:** C#
- **Libraries/Frameworks:**
 - **Frontend:** Html 5 ,CSS 3, Bootstrap
 - **Backend:** .NET (ASP.NET MVC)
 - **Databases:** SQL Server

EDUCATION

NALANDA INSTITUTE OF TECHNOLOGY

Bachelors Of Technology(B-Tech) CGPA: 8.24
(Computer Science Engineering)

June 2018-July 2022

VINAYAK COLLEGE OF SCIENCE AND COMMERCE

Intermediate(12th) PERCENT: 53

March 2018

I.U.B.P SCHOOL (10th) PERCENT: 72

May 2016

PROJECTS

GO HEALTHY

- The "Go Healthy" project is a comprehensive health management system designed to manage and monitor inventory, sales, and report generation for health-related products or services.
- Designed and implemented the "Go Healthy" health management system, encompassing front-end and back-end development.
- Developed an interactive dashboard displaying key performance indicators using real-time data and visualizations.
- Implemented comprehensive stock and sales management modules, enabling efficient tracking of inventory and sales transactions.
- collaborating with team members and stakeholders to deliver the project on time and within scope.
- Used ASP.NET MVC, C#, HTML, CSS, JavaScript, and SQL Server to build a responsive and user-friendly application.

FOOD WEBSITE

- Built a responsive food ordering website with a user-friendly design, optimized for mobile, tablet, and desktop devices.
- Designed an interactive menu page allowing users to filter and search food items based on categories like cuisine, price, and dietary options.
- Integrated responsive image galleries to display food items attractively, enhancing the visual appeal of the menu page.
- Implemented hover effects and animations with CSS to make the user interface more interactive and engaging.
- Used HTML, CSS and Bootstrap to build a responsive and user-friendly application.
