PROJECTS

WanderStay(Property Listing Website):

[Link](#)

- Built a full-stack property listing platform using Node.js, Express.js, MongoDB, and EJS, allowing users to sign up, log in, and perform CRUD operations on property listings and reviews.
- Implemented a clean and scalable MVC architecture with secure authentication and authorization to ensure well-structured code and reliable user access control.

Bakery Website Project :

[Link](#)

- Designed a fully responsive bakery landing page using Bootstrap, featuring modern UI components and mobile-friendly layouts.
 - Created and organized key sections including Hero, About Us, Explore More, top products and footer to enhance user engagement.
-
