PROJECTS

EV NOC

Full Stack Developer

Tata Power , D & IT , Mumbai

Roles & Responsibilities

- Developed responsive frontend for EV NOC using Angular, integrated with Spring Boot Rest Apis & PostgreSQL databases.
- Implemented real-time visualization of India's EV chargers using Google Maps, with user authentication, role-based access control, and fault detection system.

EV Charger Planner

Full Stack Developer

Tata Power , D & IT , Mumbai

Roles & Responsibilities

- Developed a full-stack EV Charger Planner Portal for Tata Power.
- Utilized Angular for frontend, Spring Boot for backend, and PostgreSQL for database.
- Interface includes Google Map showing points of interest and existing Tata Power chargers. Features highway routes with markers indicating chargers for enhanced planning efficiency.
- Deployed in NGINX web server along with SSL configuration.

Consumption Tracking Portal

Full Stack Developer

Tata Power , D & IT , Mumbai

Roles & Responsibilities

- Utilized Angular and Python FastAPI for swift project delivery.
- Empowers business units to retrieve charger consumption data seamlessly.
- Independently executed project, ensuring timely delivery and optimal functionality.
- Deployed in NGINX web server along with SSL configuration.

SKILLS

Angular

Java8

Springboot

PostgreSQL

Mongo DB

Fast API

Azure API Manager

EDUCATION

Master Of Computer Application

(07/2019 - 07/2022)

- Completed a rigorous three-year program, gaining expertise in programming languages, software development, and computer systems.

ACHIEVEMENTS

- Successfully transitioned from Lead Engineer-IT to Lead EV Platform Operation at Tata Power.
- Demonstrated agility in embracing new responsibilities and overseeing seamless operation of EV platforms.
- Showcased adaptability and leadership, contributing to the success of EV initiatives.
- Recognized as "Star of the Month" for August for timely delivery of the Charger Planner project.
- Appreciated and recognized for contributions to EV NOC at Tata Power Youth Power Confluence.
