TOOLS

Figma, Adobe Photoshop, Adobe Illustrator, Canva

WORK EXPERIENCE

SmartOrbit | UI/UX Designer | Aug 2025 – Present

Loyalty – Customer Loyalty & Rewards Platform

- Designed responsive web interfaces and pricing pages to clearly communicate product value and improve user engagement.
- Built user flows and wireframes to streamline onboarding and simplify feature understanding.
- Enhanced visual hierarchy and CTA placement to make plans and features easier to compare.

SmartOrbit – SaaS Business Management Platform

- Designed data-driven SaaS dashboards and workflows for monitoring business performance.
- Created user flows, wireframes, and high-fidelity prototypes in Figma to simplify complex workflows.
- Improved information hierarchy and dashboard layout for better visibility of key metrics.
- Collaborated with developers to ensure pixel-perfect implementation and smooth design handoff.

PrintBaba – Online Business Printing Platform

- Designed business category pages and product browsing experiences to simplify product discovery.
- Created responsive wireframes and UI layouts to organize complex product information clearly.
- Improved navigation structure and content hierarchy to help users find products faster.
