Projects

1.Real Estate Project: Baiyabasa

- **Overview:** Developed a comprehensive real estate website, "Baiyabasa," to showcase property listings, provide detailed property information, and enhance user experience.
- **Technologies Used:** WordPress, HTML, CSS, JavaScript
- **Key Responsibilities:**
 - **WordPress Development:** Customized WordPress themes and plugins to fit the specific needs of the project, ensuring a seamless integration with the CMS.
 - **Front-End Design:** Created responsive, user-friendly layouts using HTML and CSS, ensuring compatibility across various devices and browsers.
 - **Interactive Features:** Implemented JavaScript to add interactive elements such as property search filters, image galleries, and dynamic content updates.
 - **Performance Optimization:** Optimized website performance through code minimization, image compression, and caching techniques, resulting in faster load times.
 - **SEO:** Applied best practices in SEO to enhance search engine visibility and drive organic traffic to the website.
 - **Cross-Functional Collaboration:** Worked closely with the client and stakeholders to gather requirements, provide updates, and ensure project alignment with business goals.

2.Adivasimela - Ecommerce Multivendor Website

- **Description:** Developed a comprehensive ecommerce platform supporting multiple vendors, enabling them to list and sell products in an integrated online marketplace.
- **Technologies Used:** WordPress (WooCommerce), HTML, CSS, JavaScript
- **Key Responsibilities:**
 - Created a responsive and visually appealing user interface using HTML and CSS.
 - Customized WooCommerce functionalities and developed custom plugins to meet specific project requirements.
 - Implemented dynamic features and enhanced user interactions with JavaScript.
 - Configured and managed the multivendor environment, allowing vendors to independently manage their products and orders.
 - Ensured the website's performance and scalability through optimization techniques.
 - Implemented security best practices to protect vendor and customer data.
