Professional Summary:

Aspiring Data Analyst skilled in Python, SQL, and Tableau, with hands-on expertise in data wrangling, exploratory data analysis (EDA), and data visualization through academic projects and internships. Adept at building interactive dashboards, performing predictive modelling, and defining KPIs to derive actionable insights. Committed to leveraging data-driven strategies in industries like logistics and e-commerce to improve efficiency and decision-making.

Technical Skills

- **Languages and Databases:** Python (Pandas, NumPy, Matplotlib, Seaborn), SQL (Joins, Optimization, Window Functions), MySQL
- **Visualization Tools:** Power BI (Interactive Dashboard), Advanced Excel (Pivot Tables, Macros)
- **Other Skills:** Statistical Analysis, Machine Learning Basics, ETL Processes

Projects

Customer Market Analysis

Jan 2025 – Feb 2025

- Executed **EDA** on 8,000 records using Python, identifying 3 unique customer segments, and uncovering actionable **market trends** to redefine **segmentation strategies**.
- Developed an interactive Tableau dashboard uncovering market trends with 8 visualizations.
- Defined **5 KPIs** to measure market opportunities and provided actionable strategic recommendations.

Sales Performance Analysis

Feb 2025 – Feb 2025

- **Analyzed sales data** of 20,000 employees to identify **regional trends** and improve **strategic planning**.
- Developed Tableau dashboards showcasing temporal metrics and correlations for decision-making. 📈
Boosted reporting speed by 20%, supporting improved organizational strategies.

IPL Analysis Using Python, SQL, and Power BI

Mar 2025- Mar 2025

- **Conducted Exploratory Data Analysis (EDA)** on IPL match datasets using **SQL** and **Python**.
- **Designed a Power BI dashboard** showcasing match statistics, player performance trends, and team comparisons.
- **Identified top-performing teams and players** using statistical insights (e.g., win percentage, average scores).

Internship

Zidio Development (Data Analyst)	March 2025- Ongoing
• Completed IPL Analysis project, utilizing SQL, Python, and Power BI for in-depth match analytics. • Currently collaborating with a 7-member team on a Machine Learning project, focusing on data modelling and predictive analytics. • Assisting in data cleaning, transformation, and visualization to support business intelligence reporting. • Working with Power BI and SQL to generate insights for decision-making.	

Certifications

• Data Science and Analytics Certification from Data Minds Focused on Python, SQL, Power BI, and Machine Learning.	Nov 2024 – Mar 2025
• Career Essentials in Data Analysis by Microsoft and LinkedIn Specialized in data cleaning and exploratory data analysis (EDA) using Python, Power BI, SQL	Feb 2025 – Mar 2025
• Certified Business Intelligence with Power BI by Skill Nation Focused on Power BI to create Interactive Dashboards.	Jan2025- Jan2025

Education

• B. Tech in Computer Science Engineering DRIEMS University, Cuttack, Odisha 2020 – 2024 • Higher Secondary Stewart Science College, Cuttack, Odisha 2018 – 2020 • Secondary Education SSVM College Square, Cuttack, Odisha 2017-2018
