SUMMARY

Experienced Database Engineer with a proven track record of contributing to the success of tech projects. Skilled in MySQL, Oracle, SQL Server, PostgreSQL, PL/SQL and optimizing database performance. Education includes Bachelor of Technology in Computer Science and Engineering from DRIEMS. Excited to leverage my technical expertise and problem-solving abilities to drive innovation as a Database Engineer.

Till now, I have worked in three projects, where I had faced challenges regarding query optimization, building logics, data manipulation, oracle procedure, functions, schedulers, database performance etc.

I am seeking for better work opportunities where I want to develop my skills in my loved field and expertise in my career for an effective professional role.

EXPERIENCE

December 2022 - Current

Database Engineer CSM Technologies | Bhubaneswar, India

Currently working as a Database Engineer at CSM Technologies, I am responsible for the design, implementation and maintenance of databases. I work closely with cross-functional teams to ensure the integrity, performance and security of the databases, utilizing my skills in MySQL, Oracle, SQL Server, PostgreSQL and database performance optimization.

- Designed and implemented database schemas and structures to optimize data storage and retrieval.
- Performed regular performance tuning and optimization to maintain efficient database operations.
- Collaborated with software engineers to integrate database solutions into software applications, ensuring seamless data interaction and functionality.
- Participated in disaster recovery planning and implementation to ensure data security and availability.
- **I have a work experience of working in Development, Staging and Production databases.**

Project Details:

1. BAAF (Bihar Aadhaar Authentication Framework) : Bihar Aadhaar Portal

- * Optimized a number of procedures for smooth and productive output.
- * Restructure of some procedures according to the requirement in the application.
- * New table , function and scheduler creation.
- * Project and Database Documentation.

2. SPDP (Social Protection Delivery Platform) :Unique platform for citizen registration, beneficiary selection, and the exchange of beneficiary information across all Social Protection Schemes in Odisha.

- * Optimized a number of procedures for smooth and productive output.
- * Restructure of some procedures according to the requirement in the application.
- * New table, function, procedure and scheduler creation.
- * All procedures Documentation.

3. AIMS (Aid Information Management System) :Software application, in Mozambique, Kenya, helps donors and recipient governments share and manage aid-related data.

- * Restructured and optimized a number of procedures for smooth and productive output according to the requirement.
- * Restructured a number of sequences for the proper increment related to the primary key when a new data gets entry.
- * Restructure of 55 procedures , one scheduler related to AIMS Graph. Built new logics and queries for required output. Updated the query in the Superset for right output.
- * AIMS database documentation.

February 2022 - July 2022

Junior Software Engineer HealthvalorsTechnologies Pvt. Ltd. | Ahmedabad, India

As a Junior Software Engineer at Healthvalors Technologies Pvt. Ltd., I was involved in the development and maintenance of a software application. I worked closely with the development team to analyze requirements, design solutions and implement the software product using C++, C#, SQL and Git. Additionally, I participated in testing and debugging activities to ensure the functionality and performance of the software.

- Collaborated with team members to develop and maintain the web application, contributing to the improvement of overall system performance and user experience.
- Participated in code reviews and provided valuable feedback to enhance code quality and maintainability.
- Worked on database optimization to enhance the efficiency and responsiveness of the applications.

EDUCATION

2022

B.Tech | Computer Science and Engineering
DRIEMS, Tangi, Cuttack, Odisha

2018
