LinkedIn : <https://www.linkedin.com/in/debasish-pradhan-3aa112212>

GitHub : <https://github.com/Debasish16>

Career Objective :

Aspiring Python Developer, Data Scientist, and Web Developer with a passion for leveraging technology to solve real-world problems. Adept at creating efficient, scalable, and user-friendly solutions using Python, data analytics, and web development skills. Seeking a challenging role where I can apply my expertise in programming, data science, and web technologies to contribute to organizational success and further enhance my professional growth.

Technical Skills :

- **Programming Languages:** Python, HTML, CSS, JavaScript
- **Frameworks and Libraries:** Django (Basic), Pandas, NumPy, Scikit-learn
- **Database Management:** MySQL
- **Data Analysis:** Data visualization using Matplotlib, Seaborn

Soft Skills :

- Problem-solving
- Team collaboration
- Critical thinking
- Adaptability

Projects :

1. Air Quality Prediction

Description: Built a machine learning model to predict air quality levels using historical and environmental data.

Key Features:

- Cleaned and pre-processed large datasets for analysis.
- Implemented regression algorithms to estimate pollutant levels based on features like temperature, humidity, and AQI.
- Visualized predictions and trends using Matplotlib and Seaborn.

Tools & Technologies:

Python, Pandas, NumPy, Scikit-learn, Matplotlib, Seaborn

Impact:

Provided insights to assist in environmental monitoring and decision-making processes.

2. Password Generator App

Description: Developed a user-friendly application that generates secure and customizable passwords based on user preferences.

Key Features:

- Allowed users to specify the length and types of characters (letters, numbers, symbols) for passwords.

- Incorporated a randomization algorithm to ensure password uniqueness and security.

Tools & Technologies:

Python, Tkinter (for GUI)

Impact:

Enhanced security awareness by providing an easy-to-use tool for creating strong passwords.

3. Personal Portfolio

Description: Designed and developed a responsive personal portfolio website to showcase skills, projects, and achievements.

Key Features:

- Integrated sections for About Me, Projects, Skills, and Contact Information.
- Enhanced user experience with an interactive and mobile-friendly design.
- Deployed the website using GitHub Pages.

Tools & Technologies:

HTML, CSS, JavaScript, Bootstrap

Impact:

Improved personal branding and online presence, leading to better visibility for professional opportunities.

Education :

Bachelor of Technology - Computer Science and Engineering (2021 – 2025)

Einstein Academy of Technology and Management, Bhubaneswar

Current SGPA: 8.09

Higher Secondary Education (2019-2021)

Gyan Bharati Institute of Science and Technology, Bhubaneswar

Percentage: 72%

Secondary Education (Matriculation) (2019)

Sri Aurobindo Integral Education Centre Matrubihar, Kalupadaghat

Percentage: 71%

Certifications :

- Certified from CODSOFT on python programming.
- Certified from CAC, Bhubaneswar on Python.
- Certified from BHARAT INTERN on web development.
- Certified from TCS on communication skills.

Extracurricular Activities :

- Participated in GEN-AI webinar by NXTWAVE.
- Participated in data science career counselling webinar by DV ANALYTICS.
- Attended big data seminar in college.

Hobbies : Playing Cricket, Travelling, Listening Songs
