

NRUSINGHA BARIK

ENGINEERING LEADERSHIP | TECHNOLOGY STRATEGY | SCALABLE SYSTEM DELIVERY

+91 99309 48538 barik.nrusingha@gmail.com

in www.linkedin.com/in/nrusingha

Accomplished Senior Full Stack Developer and Tech Lead with 14+ years of experience delivering scalable, high-performance enterprise software solutions across Finance, Trading, E-commerce, Inventory, and CMS domains. Proven expertise in leading engineering teams, defining software architecture, and driving end-to-end project delivery. Skilled in aligning technology strategies with business objectives, mentoring developers, and implementing best practices for code quality, cloud adoption, and agile processes. Extensive hands-on experience in React.js, Next.js, NoSQL, Python with FastAPI web framework and AWS cloud services, enabling the delivery of robust, scalable, and maintainable enterprise applications.

Core Competencies

Engineering Team Leadership & Mentorship

Technology & Architecture Strategy

End-to-End Project & Product Delivery

Agile & Scrum Process Implementation

Enterprise Solution Planning & Execution

Multi-Domain Application Oversight (Finance, Trading, E-commerce, CMS)

Code Quality Governance & Development Standards

Cloud & Scalable System Leadership

Cross-Functional Collaboration & Stakeholder Management

Technology Roadmap Planning

Scalable Solution Leadership

Client & Stakeholder Management

Technical Skills

Operating Systems: Windows 11, Linux, Ubuntu

Programming Languages: Python, JavaScript, TypeScript, C#

Frameworks & Libraries: Node.js, Express.js, FastAPI, Django, React.js, Next.js, Angular

Databases: PostgreSQL, MySQL, MongoDB, DynamoDB

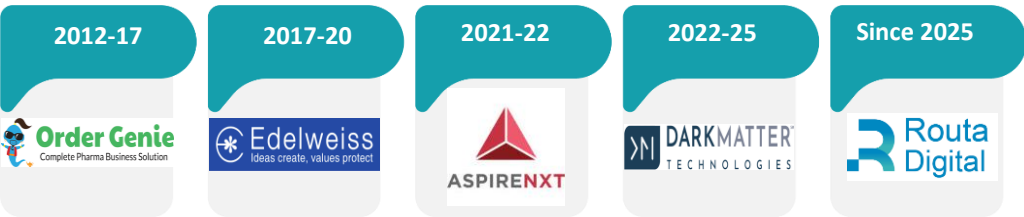

Architecture & Design: Microservices, Event-Driven Systems, REST API, GraphQL API

Cloud & DevOps: AWS (API Gateway, Lambda, CloudWatch,

Profile Summary

- 🕒 **Engineering Leadership & Enterprise Delivery:** Accomplished software engineering leader with 14+ years of experience in leading high-performing teams to design, develop, and deliver scalable, mission-critical enterprise applications across Finance, Trading, E-commerce, and Infrastructure domains. Expert in aligning technical execution with business strategy to ensure timely, quality-driven project delivery.
- 🕒 **Technology Strategy & Scalable Architecture:** Proven expertise in defining technology roadmaps, cloud adoption strategies, and modular system architectures. Adept at driving microservices, API-driven platforms, and cloud-native solutions to enable high availability, performance, and business agility at enterprise scale.
- 🕒 **Cross-Functional Collaboration & Stakeholder Management:** Experienced in mentoring and managing cross-functional engineering teams, establishing coding and architecture governance, and collaborating with product and business stakeholders to translate complex requirements into actionable technical solutions.
- 🕒 **Driving innovation through the adoption of emerging technologies & automation frameworks to enhance team productivity,** accelerate delivery timelines, & optimize enterprise software performance.

Career Timeline

Work Experience

ROUTA DIGITAL PVT. LTD – Bhubaneswar

Team Lead & Senior Full Stack Developer | Apr 2025 – Present

- 🕒 Leading the design and development of scalable microservices architectures supporting high-availability enterprise platforms.
- 🕒 Defining application architecture and overseeing implementation with backend using Python FastAPI, UI using React.js, DB using Postgres SQL to improve system performance and scalability.
- 🕒 Managing end-to-end project delivery across frontend, backend, and cloud infrastructure components.
- 🕒 Conducting regular code reviews and enforcing engineering standards to ensure maintainability, security, and performance.
- 🕒 Mentoring and guiding development teams to improve technical capability, delivery velocity, and ownership.
- 🕒 Driving technology roadmap planning in alignment with business growth and long-term platform scalability.

DARK MATTER TECHNOLOGY – Bhubaneswar

Dev Team Lead & Application Programmer II | Jul 2022 – Feb 2025

- 🕒 Tech Stack used in projects Python Django framework, Node.js, React.js, DynamoDB and AWS Services.
- 🕒 Led local and remote engineering teams to ensure consistent execution aligned with enterprise application strategy.
- 🕒 Delivered full-stack solutions by coordinating frontend and backend development activities across multiple projects.
- 🕒 Implemented development workflows and integration practices supporting scalable and maintainable applications.
- 🕒 Acted as a technical escalation point to resolve complex architectural and implementation challenges.

IAM, EC2, S3, DynamoDB, SNS, SES, SQS, SAM), Terraform etc.

Tools & Version Control: Git, Bitbucket, Docker

Other Competencies: System Design, Leadership, Jira, Agile/Scrum, Code Review, Mentoring

Achievements

- Spearheaded the design and deployment of microservices architecture that improved system scalability, supporting **increase in concurrent user requests**.
- Led cross-functional engineering teams to deliver **enterprise projects** on schedule, enhancing business process efficiency and reducing delivery timelines.
- Implemented cloud adoption and serverless solutions, reducing infrastructure costs while improving system reliability and uptime.

Certifications

- Certificate in Computing (CIC)**
Indira Gandhi National Open University (IGNOU) | 2009
- Computer Hardware & Networking**
Electronic Translations & Technology (ET&T), Bhubaneswar | 2008
- Pro Master in Information Technology**
Zee Career Academy (ZCA), Odisha | 2007

Education

- Master of Computer Applications (MCA)**
Indira Gandhi National Open University (IGNOU), Bhubaneswar | 2012
- Bachelor of Science – Computer Science**
Utkal University, Odisha | 2004

ASPIRE NXT PVT. LTD – Bengaluru

Associate Architect | Jan 2021 – Jul 2022

- Tech Stack used in projects Node.js with express framework, React.js, MySQL and AWS services.
- Designed software architectures including database models, business logic modules, and UI interaction flows.
- Coordinated with architects and engineering teams to define modular and scalable system designs.
- Provided technical direction during project execution to ensure adherence to architectural standards.

EDELWEISS LTD – Mumbai

Senior Full Stack Developer | Feb 2017 – Dec 2020

- Developed web applications using Node with express, Python with Django framework, Postgres SQL and Angular.
- Delivered enterprise-grade trading and financial systems using microservices and cloud-based architectures
- Developed and integrated multiple application modules across frontend, backend, and cloud services.
- Supported mission-critical platforms by ensuring performance, reliability, and compliance with business requirements.

ORDERGENI SYNERGIES PVT. LTD – Mumbai

Full Stack Developer | Aug 2012 – Feb 2017

- Developed scalable web applications using Python with Django framework, MySQL and HTML, CSS.
- Implemented serverless components and cloud-based backend services for improved efficiency and scalability.
- Contributed to application design, development, and deployment across multiple client projects.

Projects Undertaken

Seller Digital Application

Domain: Finance & Lending

Designed and delivered a modern loan origination platform enabling lenders to offer personalized financial products based on borrower profiles. Implemented configurable workflows to support dynamic loan terms, interest rates, and repayment structures. Enabled rapid adaptation to changing market conditions while improving borrower experience, operational efficiency, and repayment outcomes.

ExxonMobil Inventory Management Application

Domain: Inventory & Asset Management

Led the development of a cloud-based backup and retention solution to replace traditional in-store backup mechanisms across retail locations in Singapore. Defined enterprise-level backup policies and compliance requirements, enabling secure, centralized, and scalable data protection. Improved data availability, disaster recovery readiness, and operational resilience.

Fiberail Capacity Management System

Domain: CMS / Telecom Infrastructure

Delivered a centralized capacity management system to track fiber optic core bandwidth, cabin utilization, and tower assets. Established a single source of truth for operational data and reporting, improving visibility, planning accuracy, and decision-making across infrastructure operations.

Edelweiss Trading & Financial Platform

Domain: Trading & Financial Management

Contributed to the development of an enterprise trading platform enabling investors and traders to execute and monitor transactions across multiple financial instruments. Implemented structured approval workflows for trading limits based on predefined risk and compliance rules. Enhanced governance, control, and transparency in trading operations for financial intermediaries.

E-commerce Enterprise Portal

Domain: E-commerce Applications

Delivered an enterprise e-commerce platform integrating core business processes to enable real-time data sharing across operations. Automated key workflows to improve efficiency, data consistency, and operational scalability. Supported business decision-making through centralized access to transactional and operational information.

Personal Details

Address : Bhubaneswar, Odisha, India

Languages Known : English, Hindi, Odiya

Date of Birth : 9th Nov 1981
