WORK EXPERIENCE

Software Developer

July 2023 - Present

Ajatus Software Pvt Ltd

- Led the development of a Workflow Management System (WFMS) using the MERN stack, integrating modules for leave management, attendance tracking, and work-from-home requests independently. Designed and implemented a voice application (Voece) with AI algorithms for voice analysis and improvement, collaborating with specialists to enhance voice recognition. Developed Receiptium, a centralized platform using Mysql and RESTful APIs for receipt management, ensuring easy access and data retrieval. Collaborated with cross-functional teams to gather requirements, design solutions, and deliver high-quality features within project timelines.

Software Developer intern

April 2023-June 2023

Ajatus Software Pvt Ltd

- Assisted senior developers with debugging complex issues that arose during the testing phase.
- Created proofs of concept for innovative new solutions.
- Coordinated deployments of new software, feature updates and fixes.
- Collaborated with team members to design, develop, and launch a user-friendly software product.

PERSONAL PROJECTS

E-Commerce Website

- Developed a full-stack e-commerce website using the MERN stack. Implemented user authentication, product catalog, shopping cart, and checkout functionality. Technologies Used: MongoDB, Express.js, React.js, Node.js, Redux, Bootstrap.

Blogging Platform

- Created a blogging platform with user registration, post creation, commenting, and search features. Implemented RESTful APIs for backend functionality. Technologies Used: Mysql, Express.js, React.js, Node.js, JWT Authentication.
