

CHINMAYA KUMAR MISHRA

Full-Stack Web Developer

imchinu17@gmail.com | 7077835119 | Bhubaneswar,Odisha

GitHub | **HackerRank** | **Portfolio** | **Linkedin**

EDUCATION

Parala Maharaja Engineering College

Degree in B.tech

Berhampur,Odisha

july/2018 - july/2021

Govt.polytechinc

Degree in Diploma

Berhampur,Odisha

August /2014 - August /2017

EXPERIENCE

Monza | Full-stack web developer

San Francisco | june 2024 - July 2024

At Monza, I develop the Monza Payroll System using React for the frontend and Express/GraphQL for the backend. I integrate the Stripe API for secure US market payment processing, enhancing employee management and payroll operations. I contribute remotely part-time, ensuring effective collaboration and high-quality solution delivery.

SKILLS

Programming Languages: Javascript, Python, C++

Libraries/Frameworks: React.js, Next.js, Bootstrap, Tailwind, Express.js, Redux.js

Tools / Platforms: Git, Github, Chatgpt, Vs Code, Figma

Databases: MongoDB, Firebase, no-sql

PROJECTS / OPEN-SOURCE

TechScan | Link

React,Express,MongoDB,tailwind,css

TechScan is a dynamic tech blog offering the latest product news and reviews. It provides detailed product breakdowns, comparisons, and expert opinions to help readers stay informed about the latest gadgets and technologies.

CareNexus | Link

React,Css,Bootstrap,ContextApi,React Router

Revolutionizing hospital management, CareNexus empowers patients with a Create React, CSS, React Router, and Bootstrap-driven app. Seamlessly schedule appointments, receive instant confirmations, and access PDF details. Prioritizing efficiency and accessibility, CareNexus optimizes hospital operations for enhanced patient satisfaction.

CVM (Centralized Voting Management) | Link

React,Firebase,Tailwind.css,Context Api

CVM, built on React, allows users to validate their voter ID and securely cast their votes for political parties. Administrators can monitor results via a dedicated dashboard. It ensures integrity and transparency in the voting process.

Url Shortener

Next.js,Express.js,MongoDB,Material-ui

Our URL Shortener App allows users to log in and securely store their shortened website links. Users can customize URLs, track click statistics, and manage links with options to edit, update, or delete them as needed, offering a streamlined solution for URL management and sharing.
