OBJECTIVE

I am a passionate and skilled MERN (MongoDB, Express.js, React.js, Node.js) developer with one year of hands-on experience in building dynamic and responsive web applications. Over the past year, I have honed my skills in both front-end and back-end development, creating full-stack applications that deliver exceptional user experiences.

EXPERIENCE

Ajatus software pvt Ltd

April-2023 - June-2023

Software developer intern

Learned the fundamentals of HTML, CSS, JavaScript, and the MERN stack.

Fixed bugs and implemented new features under the supervision of senior developers.

Gained practical experience in debugging and enhancing web applications.

Assisted in developing responsive web interfaces and backend functionalities.

Ajatus software pvt ltd

Jul-2023 - Current

Software developer

- Participated in Agile processes, including sprint planning and daily stand-ups.

- Designed and implemented scalable application architecture.

- Managed version control systems to effectively track and maintain project progress.

- Led a cross-functional team to meet tight deadlines efficiently.
