- Pre-checkin - Responsible for the entire development and integration of this (mobile only view) product. This enables customers to avoid long queues by completing check-in before arriving at the hotel. Styled using TAILWIND CSS.
- Instant booking Widget - Handled the development of this embeddable react widget. Developed its calendar feature using moment.js. Animation with Gsap.
- CRM - Integrated all the major features. Done extensive testing through the react testing library. Chart implementation using chart.js. Animation with react-spring.
- ExtranetV4 - Implemented major features like 'Unpaid bookings', 'Promotions'. Development of 'Header section'. Bug fixing of 'Property setup' section. SASS, Styled components & BOOTSTRAP.
- CRS - Development of 'Partners' section.
