CAREER OBJECTIVE

Passionate full-stack web developer seeking a dynamic role in an innovative company. Dedicated to creating seamless user experiences by integrating front-end and back-end technologies. Excited to join a collaborative team, expand my skills, and drive impactful results in a continuous learning environment.

PROJECTS

Title – Portfolio

Create a fully responsive online portfolio that reflects your personality and skills. Include sections like an "About Me" page, a project showcase, a resume display, and contact details. Use HTML, CSS, JavaScript, and Bootstrap for a visually appealing and functional website.

Title – TO-DO Application

Embark on creating a dynamic to-do list application brimming with functionalities like effortless task addition, seamless editing. Employ a blend of React for single page Bootstrap, MaterialUI for attractive user experience Node.js, Express.js, and MongoDB for api and store the appointment in database

Title – React Admin Dashboard

Develop a cutting-edge React admin dashboard with TypeScript, SaaS, React Table, and dynamic charting. This app offers streamlined data management and visualization for modern web applications.
