SUMMARY

Full Stack Web Developer with 11 months of experience in designing, implementing, and maintaining web applications. Proficient in both front-end and back-end technologies, with a strong commitment to delivering high-quality, user-friendly solutions.

EXPERIENCE

Hirola Infotech Solutions Pvt Ltd - Bengaluru

Feb 2023 – Present

Junior Full Stack Developer

- Pioneered the development of an intuitive and comprehensive website customization feature within an e-commerce platform, empowering clients to build pages from scratch. This groundbreaking functionality allowed users to not only personalize colors, fonts, and layouts but also offered the unique capability to construct entire pages tailored to their specific needs. This innovation significantly elevated the user experience, providing clients with unprecedented control over their online presence and reinforcing the platform's commitment to empowering businesses in the digital landscape.
- Drove the development of finance-related applications, leveraging cutting-edge technologies to provide users with tools for managing financial transactions, investments, and tracking expenses.
- Contributed significantly to e-commerce applications, implementing features such as product catalogs, shopping carts, secure payment gateways, and user profiles, thereby enhancing online shopping experiences.
- Led the creation of a dynamic blog website equipped with a sophisticated content management system (CMS), allowing content creators to publish, edit, and manage articles seamlessly.
- Successfully deployed applications across diverse platforms such as Virtual Private Servers (VPS), Heroku, OnRender, Hostinger, and Netlify, showcasing a commitment to accessibility, reliability, and scalability.
- Contributed significantly to PHP projects, involving basic form connectivity, sending emails, and utilizing MySQL databases for data storage and retrieval.
- Collaborated with cross-functional teams to conceptualize, develop, and deploy user-centered web applications that address specific business needs.
- Designed and crafted responsive and interactive front-end components using React.js, Next.js enhancing the overall user experience and engagement.
- Engineered robust and efficient RESTful APIs using Express.js, enabling seamless data communication between front-end interfaces and back-end services.
- Architected, maintained, and optimized MongoDB databases, ensuring efficient data storage, retrieval, and system performance.
- Implemented version control using Git, contributing to a streamlined and organized collaborative coding process that improved team productivity.

TECHNICAL SKILLS

- **Front-End:** React.js, Redux, Tailwind, TypeScript, Bootstrap, Unit Testing, Jest, RTL, Ejs, JavaScript ES6
- **Back-End:** Node.js, Express.js, nginx
- **Database:** MongoDB
- **Version Control:** Git
- **Deployment:** VPS, Hostinger, OnRender, Heroku, Netlify
- **RESTful APIs**
- **Responsive Web Design**
