

Dwitidibyajyoti Sahoo

Software Engineer

Summary

Proficient in Node.js, Express.js, MongoDB, Laravel, Next.js, and React. Experienced in full-stack development, particularly with the MERN stack. Skilled in managing the entire software development life cycle and building scalable, high-performance applications using AWS. Strong in both frontend and backend development, with a focus on effective collaboration and continuous learning.

Education

2023–Present **Btech in Computer Science Engineering**, *Krutika Institute of Technical Education (KITE)*, Bhubaneswar

2016–2019 **Diploma in Mechanical Engineering**, *Govt. Polytechnic College*, Dhenkanal
Grade: 59.49%

Experience

Professional Experience

Jun 2023 – **Software Developer**, *Quotus Software Solutions*, Bhubaneswar

- Present
- Managed the NLP project, overseeing the development and implementation of speech-to-text conversion and data extraction using OpenAI API.
 - Developed and maintained web applications using Next.js, GraphQL, and Kubernetes.
 - Integrated ChatGPT for natural language processing tasks.
 - Managed software infrastructure on Amazon Web Services (AWS).
 - Collaborated with designers using Figma for software design.
 - Implemented TypeScript for type-safe JavaScript development.
 - Utilized Firebase for real-time database and authentication services.
 - Dockerized applications for consistent deployments across environments.

Projects:

- **pdf-parser:**
 - Extracted text, tables, and images from PDF documents using Node.js and Python.
 - Developed a robust parser capable of handling a variety of PDF formats and extracting structured data for further processing.
 - Implemented error handling and logging to ensure reliability and traceability of the extraction process.
- **Meta-game:**
 - I worked on the payment system, ensuring secure and efficient transaction processing.
 - Developed the admin site for managing game content and user interactions.
 - We implemented affiliate modules to support marketing and user acquisition strategies.
- **NLP for hotel searching website:**
 - Managed the integration of speech-to-text conversion and data extraction using OpenAI API to enhance user experience.
 - Designed and implemented the backend infrastructure to support real-time data processing.
 - Collaborated with the frontend team to integrate NLP functionalities seamlessly into the user interface.

Apr 2021 – **Software Engineer**, *NetTantra Technologies*, Bhubaneswar

- May 2023
- Developed and maintained web applications using Next.js, React.js, and Node.js.
 - Implemented version control using Git and collaborated with teams on GitHub.
 - Managed relational databases using MySQL and performed CRUD operations.
 - Styled web interfaces using CSS, Bootstrap, and Materialize CSS.
 - Developed and maintained RESTful APIs using Express.js.
 - Deployed applications on AWS infrastructure.
 - Worked on backend development using Laravel for PHP projects.

Projects:

- **Artisan Medical Solutions:**
 - Fixed critical bugs and improved application stability and performance.
 - Performed complex database operations, ensuring data integrity and efficiency.
 - Implemented new features using technologies such as Elastic Search, AWS, and SQL to enhance the platform's capabilities.
- **Doctegrity:**
 - Developed new features including a KYC video call system for identity verification.
 - Built with Node.js and React, ensuring a seamless integration of front-end and back-end functionalities.
 - Improved user experience by optimizing performance and implementing user-friendly interfaces.
- **Mangorx:**
 - Led development for an e-commerce website specializing in selling medicines.
 - Implemented subscription orders and a Q&A feature for patients to interact with pharmacists.
 - Developed backend systems for handling shipping and payment processing using Laravel and Next.js.

Technical Skills

Programming Languages

JavaScript, PHP, SQL, Python

Frameworks

Laravel, GraphQL, Express.js, Next.js, React.js, Node.js

Database

MySQL, MongoDB, Postgres

Tools

Docker, AWS, Firebase

Soft Skills

Soft Skills

- Strong organizational and time-management skills.
- Exceptional communication and interpersonal skills.
- Ability to work independently and as part of a team.
- Detail-oriented and able to handle multiple tasks simultaneously.
