Skills

- Graphic Designing : Adobe Photoshop, Adobe Illustrator, Adobe Premiere Pro, CorelDRAW
- UI/UX Designing : Figma
- Web Development : HTML, CSS, Javascript, React.JS
- Programming: Java, Data Structures

Projects

- **Logo Crafting** : Successfully spearheaded the development of impactful logos for "Solar Help" and "Web Tech Tomorrow,". Adeptly managed multiple design projects concurrently, ensuring on-time delivery through exceptional time management skills.
- **Event Illustrating** : Went beyond invitations to craft a cohesive wedding experience by designing matching save-the-dates, venues, and fostering a collaborative design process to ensure a unified visual theme. Designed wedding invitations that showcased unique as well as distinct cultural heritage, creating a beautiful and meaningful celebration.
- **Trendy Tales Blog App (Team Project)** : The blog app prioritizes a dynamic and responsive user interface. Built dynamic UI components for posts, comments, and user profiles. Implemented user registration, content creation, and social sharing features.

Certifications
