WORK EXPERIENCE

Software Developer

Luminous Infoways World Pvt. Ltd |
Bhubaneswar

04/2023 - Present

Bhubaneswar

Achievements/Tasks

- **Project CAS (Cashbook Analytics System)** : Designed and implemented an advanced analytics system for the Government of Odisha's Fisheries Department. Enhanced the system with features for Bank Reconciliation Statements (BRS), advanced accounting functionalities, and comprehensive reporting capabilities. Utilized Node.js and MongoDB to improve financial management, streamline operations, and provide detailed financial insights.
- **Project PMS (Project Management System)** : Led development of a sophisticated project management system featuring task tracking, chat, screen sharing, and video conferencing. Integrated role management and a timer feature for better project organization and task monitoring. Utilized Socket.io and WebRTC for real-time communication and collaboration, ensuring efficient team coordination and project execution.
- **Project MMR (Make My Report)**: Developed a web-based application that allows users to customize forms and send them to employees for completion. Built a responsive mobile application using React Native, which enhances user experience and streamlines data management.
- **Project PPMS (Panchayat Raj Project Management System)** : Created a dynamic mobile application using React Native for managing Panchayat Raj projects. Integrated location-based tracking to monitor project progress across various geographies, improving project oversight and real-time updates.

Software Developer Intern

Academind | Remote

03/2022 - 03/2023

Achievements/Tasks

- Developed and implemented software solutions adhering to industry best practices and standards.
- Created REST APIs and modern web applications using Node.js, React.js, and other contemporary technologies.
- Managed version control and collaborative development using Git and SVN, ensuring code quality and effective project coordination.
