EDUCATION

I.M.S Engineering College, Ghaziabad Aug. 2019 – May 2023
Bachelor of Technology in computer Science and Engineering Current GPA: 7.7/10.0

EXPERIENCE

Trainee – Software Developer(Front-end/back-end) Jan 2023 – Jan 2024

- Key Development (Using Reactjs): My first achievement is the opportunity to create a form in the Smart Access Portal for AIMS integration. This is a significant step in enhancing our system's capabilities and improving the overall user experience
- Efficiency through Cache Server(Redis Cache Server): Implementing a cache server to reduce passenger waiting times at the airport demonstrates your commitment to enhancing operational efficiency. This can lead to a smoother and more enjoyable experience for travelers while optimizing resource utilization
- Notification API Implementation(Spring Boot): Creating an API for sending notifications at specific times is another notable accomplishment. This functionality can greatly enhance communication and user engagement, ensuring timely information delivery

FRONT-END INTERN , (MACAWBER BEEKAY) |ReactJs July 22-AUG'22

- Collaborated on the development of the company's website, with a primary focus on crafting intuitive and visually appealing user interfaces using ReactJS. Engaged in cross-functional teamwork to ensure seamless integration of front-end components, contributing to an enhanced overall user experience.
- Acquired hands-on experience in meticulously crafting responsive and interactive user interfaces, showcasing a commitment to delivering engaging and user-friendly web experiences. Applied industry best practices in front end development, ensuring optimal performance and usability across various devices and screen sizes.

SKILLS

Languages: C/C++,Java, JavaScript/TypeScript, HTML/CSS

Tools: Git/GitHub, Unix Shell, Webpack, VS Code, IntelliJ,PostMan, SonarLint, Atom

Frameworks: React,Spring Boot, WordPress, Material-UI

PROJECT

TICKET BOOKING SYSTEM | BY USING JAVA ,SPRING BOOT

Application consists of login registration,check train availability and fair,book ticket,and payment page.Customer can enter his source to destination information to find out the services available and book ticket as per their time slot and fair

WEATHER DETERMINING APP | BY USING REACTJS,AND STATIC API

Developed a Weather Forecast App using ReactJS and integrated it with a weather data API to provide real-time weather information to users

EXTRA-CURRICULARS

500+ SCORE WITH MORE THAN 200+ QUESTION SOLVED ON GFG,
Certified in Mysql Coursera
College Level Winner in Smart India Hackathon

SELF-DECLARATION

I confirm that the information provided by me is true to the best of my knowledge

Date: 22-January-2024

Place: Noida, U.P. (India)
