SUMMARY

- Software Engineer with 1.7 years of experience in Web Application Development. Demonstrates expertise across the entire software development lifecycle, including design, coding, debugging, testing, and maintenance. A valuable team player known for taking ownership of projects, ensuring smooth execution and timely delivery through excellent coordination and collaboration.

WORK EXPERIENCE

Software Engineer | Cavisson Systems -Noida

Sep 2023 - Present

- Revolutionized Net Test by extracting test cases from real user sessions: identified unique functional test cases, boosting automation coverage by 30pct and saving 60 hours per month in manual testing.
- Improved test case coverage by 30pct using NetVision-captured data.
- Integrated automation tools like Bats Framework and Robot Framework into NetTest, streamlining the testing processes and improving efficiency by reducing manual testing time by 40pct.
- Contributed to the development of NetVision, a product ensuring exceptional online customer experiences by monitoring responsiveness and interaction ease, resulting in a 15pct improvement in user engagement scores.

Associate Software Engineer | Cavisson Systems -Noida

Feb 2023 - Sep 2023

- Acquired in-depth expertise in Net Test Product, Java, Angular, Linux, PostgreSQL, HTML/CSS, and performance testing tools delivered a 25pct increase in application efficiency and a 30pct decrease in system errors through strategic testing and implementation
- Contributed to all development life cycle stages from requirement gathering to production releases, improving project delivery times by 20pct.
- Successfully debugged code and identified root causes of issues by reviewing configuration files and logs, resolving 90pct of reported bugs.

PROJECTS

Enhancing NetTest :

- Nettest is an advanced automation product designed to automate test cases. All steps are managed through the Netstorm and Netvision products.
- Worked on a Git automation test project, automating processes like connecting to Git, selecting branches, retrieving the directory structure, and cloning repositories. Automated the creation of test cases using BATS, Robot Framework, and Puppeteer, which were then executed in NetTest for result analysis.
- Optimized test execution timings by enhancing the scheduler, improving resource utilization and enabling more flexible and timely test runs, leading to a 30pct reduction in execution time.
- Implemented NBH (Non-Business Hours) to skip non-business hours data in the report, ensuring that only business hours data is displayed.

SKILLS

Programming Languages: Java, OOPs, JavaScript, TypeScript.

Web Technologies: HTML, CSS, ANGULAR, REST APIs.

Testing Tools: Postman API.

Database: PSQL, SQL.

Developer Tools: VS Code, SpringTool.

Operating Systems: Linux (Ubuntu), Windows.

Version Control: Git, GitLab.

Defects Tools: Bugzilla.

EDUCATION

GIET University gunupur, Odisha

Aug 2021 - Jul 2023

MCA STREAM :- Computer Science Engineering

Focus College of science Angul, odisha

April 2018 - Jul 2021

Utkal University :- Physics honours
