

Jagrat Kharbanda

Full Stack Developer

As a seasoned software engineer and consultant with a keen eye for design, I bring three years of hands-on experience in **full stack development**. My expertise extends to **translating design concepts into engaging user interfaces**, ensuring a seamless and visually **appealing user experience**. Eager to leverage my skills in a dynamic frontend development role that values innovation and effective team collaboration, I am also enthusiastic about exploring opportunities in **product management** to contribute my strategic vision and technical proficiency in shaping exceptional digital products.

WORK EXPERIENCE

Senior Software Developer Recur Club

07/2022 - 07/2023

Gurugram, India

Achievements/Tasks

- **Collaborated and maintained** Recur's product on both admin and customer sides, primarily utilizing React and Typescript. **Created APIs** for various functionalities, including CSV export and frontend navigation configuration.
- **Led the implementation** of key functionalities within Recur's product, such as implementing Infinite Scroll resulting in a **30% decrease in bounce rate**, integrating **Zoho, QuickBooks, and HubSpot live chat**, and incorporating **Finbox** for seamless retrieval of bank statements ultimately driving **higher conversion rates**.
- **Recognized** for **pioneering a solution to digitally display e-signed documents** and successfully **modernizing legacy source code**, resulting in a notable **50% improvement in performance**.
- **Collaborated** cross-functionally with product management and engineering teams to align expectations with product requirements, resulting in a **25% improvement in development efficiency** and **accelerated time-to-market** for Recur's product.

Software Developer VenueMonk

07/2021 - 07/2022

Gurugram, India

Achievements/Tasks

- Worked on **Recur's (VenueMonk's client)** Admin and Customer portals, developing an **end-to-end onboarding process** for seamless data submission.
- Designed and implemented a bespoke **drag-and-drop feature** for file uploads, **obviating** the necessity for **external libraries**.
- Integrated **Sentry** for robust error logging and **set up Mix Panel Tracking** to capture user actions and insights.
- Awarded "**Employee of the Month**" for the months of **October, January & March**.

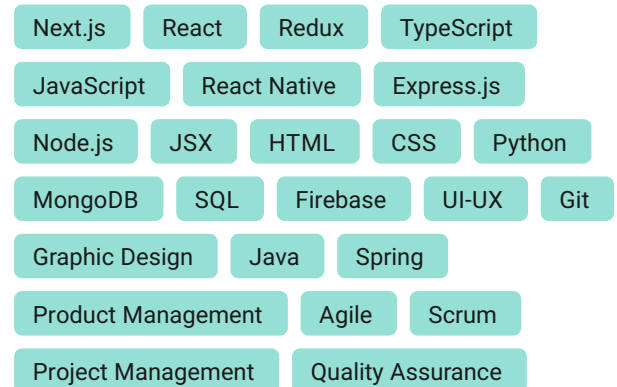

EDUCATION

Bachelor Of Science - Computer Science University Of Delhi

07/2017 - 10/2020

Delhi, 7.45 CGPA

SKILLS

PERSONAL PROJECTS

Money Manager (12/2023 - 12/2023)

- Developed a **React Native mobile app** with robust functionality for displaying and managing **multiple bank cards**, featuring a **user-friendly interface** and an efficient catalog page.
- Facilitated users with a streamlined overview of their **entire transaction history**, ensuring a **convenient and efficient** experience.

Fortune Wheel (11/2023 - 12/2023)

- Implemented a visually appealing wheel in the interactive web application using **Next.js**, resulting in a **30% increase in click-through rates** and a **20% rise in user conversions**.
- To produce an eye-catching spin effect, used **CSS animations**. The wheel stops in a realistic and pleasant manner to disclose the chosen fortune.

Book Store WebApp (09/2023 - 10/2023)

- **Modernised a bookstore web app** with a versatile feature set, including Home, Books, Authors, and Shopping Cart sections in the navbar.
- Users can effortlessly add or remove books from the cart, enhancing the overall shopping experience.

ACHIEVEMENTS

National Institute of Electronics & Information Technology (NIELIT) (07/2016 - 07/2017)

Completed various projects at the end of various learning sections and learned subjects such as IT, IWD, Multimedia, etc.

Organised College Fest - CODOTSAV (02/2019 - 04/2019)

Have been a part of the Organising committee of CODOTSAV, the annual fest of Department of Computer Science of CVS
