Education

B.Tech (Computer Science) (2020-2024)
Nalanda Institute of Technology, BBSR
CGPA: 8.37/10

Intermediate (Science) (2018-2020)
Stewart Science College, Cuttack
Percentage: 52%

Matriculation (2017-2018)
Sanskar International School, Bargarh
Percentage: 88%

Technical Expertise

Tech Stack:

- Python | Django | DRF
- Javascript | ReactJS

Tools:

- Git | Github
- Postman | Docker

Familiar with:

- C | C++ | PHP | MySQL
- HTML | CSS | Bootstrap

Certifications

- Django Framework -GeeksForGeeks
- Python Professional -Infosys
- C++ STL -GeeksForGeeks
- Master Javascript -GeeksForGeeks
- The Joy of Computing -IIT, Madras

Professional Skills

- Eye for detail
- Openness to change
- Team Management
- Goal oriented
- Agile Tech-savvy

Linguistics

- English • Hindi • Odia

Extra-Curricular Activities

- Hosted and anchored diverse college events, ensuring engaging presentations and smooth coordination.
- Bagged 1st position in GRILLs-Coding Quiz Competition.
- Participated in Google DevFest, gaining insights into cutting-edge technologies and expanding my professional network.

About Me

- I possess a strong command of Programming Languages and enjoy addressing complex challenges with enthusiasm and a growth mindset.
- Proficient in backend development with extensive experience in Python, Django, and RESTful APIs.
- Successfully managed full-stack projects, ensuring timely delivery and high-quality outcomes with adaptive learning.
- Strong collaborator and communicator, effectively working with diverse teams to achieve common goals.
- Demonstrated problem-solving skills, tackling complex challenges with innovative solutions.
- Committed to continuous learning and professional growth, always exploring emerging frameworks and technologies.

Internships

Spikewell India Pvt. Ltd. | SDE Intern (Dec 23 - Feb 23)

- Developed a RESTful API using .NET framework to manage care providers' data, improving data access speed by 30%.
- Implemented the repository pattern to separate data access logic, significantly enhancing maintainability and scalability.
- Crafted a meticulously designed and normalized SQL database schema, which streamlined data organization and retrieval and improved data query efficiency by 25%.

CODEBEAT | Backend Developer Intern (May 23 - Aug 23)

- Utilized Python and the Django framework with PostgreSQL to build robust backend solutions, enhancing application performance and reliability.
- Implemented RESTful APIs for seamless communication between front-end and back-end systems.
- Integrated JSON Web Tokens for secure authentication and authorization mechanisms.

INSS | Full Stack Developer Intern (Nov 22 - Jan 23)

- Developed a web application called "Book My Doctor" for online appointment booking.
- Utilized PHP, HTML, CSS, JavaScript, and Bootstrap for building an intuitive and responsive Website.
- Integrated with MySQL database for seamless data storage, retrieval and manipulation of data.

Projects

- **ConvoBuzz (Chat WebApp)** (July 24)
Django Channels | WebSocket | Redis | ASGI
- **Echoes (SocialMedia WebApp)** (June 24)
Python | Django | Templates (MVT) | Cloudflared
- **RecipeRealm (WebApp)** (Apr 24)
Django REST Framework | PostgreSQL | SMTP
- **Surjabasha (Backend)** (Jun 23 - Aug 23)
Django | ORM | PostgreSQL | SimpleJWT | Twilio
