EDUCATION

Vellore Institute of Technology

Bachelor of Technology in Information Technology. CGPA - 8.20

Vellore, TN

Jul. 2018 – May 2022

St Mary's School

Higher Secondary (Class XII) in CBSE Board. Percentage - 85%

Hisar, Haryana

Apr. 2016 – Mar. 2018

EXPERIENCE

Jai Kisan(Greenizon Agritech Consultancy Pvt Ltd.)

Bengaluru, KA

Full Stack Developer

Jul. 2022 – Present

- Bharat Khata
 - * Developed backend for R2F (Retailer to Farmer) module within the main app, Bharat Khata. Responsible for implementing the entire loan booking flow. Key responsibilities included:
 - Syncing retailer contacts from the mobile app.
 - Storing contact data in **Neo4j graph database**.
 - Keeping node data updated through **Kafka** events from various services.
 - Real-time synchronization using **Kinesis** and **API Gateway**.
 - Utilized **Redis** for caching purposes.
 - * Collaborated on the **integration** of 3rd party APIs, such as **Slack**, to ensure seamless functionality in the event of API malfunctions.
- Check Eligibility
 - * Led the development of a revamped Check Eligibility V2 using **Angular & Node.js**, facilitating easy loan eligibility checks for farmers on 3G+ networks. Collaborated with product and design teams, resulting in a remarkable **70%** improvement in conversion rates compared to V1. Successfully scaled the system to accommodate over **2 million** users within **4 months**, handling more than **1000** concurrent users seamlessly.
 - * Developed a **WhatsApp bot** leveraging **Yellow.ai** and **Node.js** APIs to empower farmers with a simple and efficient means of checking their **loan eligibility** via WhatsApp.
 - * Led technical specification creation and executed **A/B testing** for UI changes, including **Truecaller Login**, across Check Eligibility website sections, resulting in an average **40%** conversion rate increase tracked through **MoEngage** events.
- POS(Point Of Sale)
 - * Developed Telecallers' dashboards, Inventory management dashboard used to **manage inventory of 7 partners**, and enhanced existing BNPL loan dashboard to facilitate problem resolution in loan applications and download reports in CSV.
 - * Achieved a **40%** reduction in search query response time by optimizing the backend of the **admin panel** for viewing loan details.

SDE Intern

Feb. 2022 – Jul. 2022

- Conducted **unit testing** on the existing dashboard using **JEST** with **code coverage of 90-92%**.
- Introduced **Asynchronous Logging** systems for all microservices which improved API response times by 20%.

X.Args

Remote

Web Development Intern

Jul. 2020 – Sept. 2020

- Developed the **full stack website** for Curiod (job portal for medical professionals)
- Developed RESTful APIs using **NodeJs**, **MongoDB** with **ReactJS** as front-end.
- Developed an **admin console** for monitoring posted jobs and customizing cron job schedules

PROJECTS

- **Cyber Bullying Detection:** | *MERN stack, REST, JWT, CNN, Google Vision API* - Developed a full-stack social media platform employing a hybrid CNN and KMeans Clustering model for text and image cyberbully detection, further enhancing content understanding with Google Vision API for infographic text extraction.
- **Jobhub:** | *ReactJS, MongoDB, Node.js, Typescript, GraphQL, Git* - Created a job portal for daily wage job seekers and employers, utilizing the MERN stack and GraphQL (Apollo client) for a comprehensive full-stack solution.

TECHNICAL SKILLS

Languages: Java, Python, C/C++ , SQL (Postgres), JavaScript(ES5/ES6), Typescript, HTML5, CSS3, Cypher

Frameworks: Angular, React, Spring, Node.js, Flask, MongoDB, Firebase, REST API, GraphQL, Neo4j

Libraries: Tailwind, Bootstrap, Material-UI, JQuery, Redux, Jest, Junit, ,

Tools: Git, Docker, AWS, Gradle, Maven, Webpack, Kinesis, Kafka, Api Gateway

Skills: Front-end, Back-end, Full-Stack, Micro-services, Documentum, Web Sockets, CI/CD, Agile , Unit Testing
