SOFTWARE ENGINEER

Developed and deployed modern, responsive web applications leveraging React, HTML, CSS, and JavaScript; improved user experience by 30% and maintained code quality, adhering to Agile methodologies with over 1.5 years of hands-on experience.

KEY SKILLS:

- **Web Dev:** JavaScript, ReactJS, HTML, CSS, Bootstrap, PHP
- **Tools** GITHUB, cPanel, GIT, SQL
- **Others:** RESTful APIs, Agile methodologies
- **Soft Skills:** Communication, Teamwork, Problem-Solving, Adaptability
- **Networking Concepts:** Basic Knowledge of IP addresses, DNS, and TCP/IP.

WORK EXPERIENCE:

EASTMILES PVT. LTD - Talent in Cloud

Frontend Developer

Description: An advanced platform designed to streamline efficiency through centralized documentation, automated data extraction, and process tracking.

Link: <https://www.talentincloud.com/>

- Gained experience troubleshooting JavaScript, HTML and CSS on specific pages while working as a developer to improve user-friendly interfaces with React, PHP and Laravel configurations.
- Constructed and fine-tuned admin panels, corrected usability problems while doing minor troubleshooting to maintain user experience.
- Optimized manual testing procedures, reducing development time by 15%.
- Spearheaded Agile processes, ensuring 100% on-time delivery of features.
- **Mentored** new team members and documented processes, increasing team efficiency and knowledge sharing.

SSTECH NETWORKING SOLUTION PVT. LTD

Frontend Developer

Links: Project One (SCR) : <https://southcargoroadline.com/>

Project Two (ananyaadhashree) : <https://www.ananyaadharshree.com/>

- Designed and developed user-friendly interfaces for new projects using React, JavaScript, HTML, CSS and Bootstrap ensuring high performance and responsiveness.
- Managed and deployed web applications via **cPanel** and **AWS**, ensuring secure and efficient deployment processes.
- Conducted initial testing and debugging to identify and resolve issues promptly, maintaining high-quality standards from the outset.
- Participated in Agile methodologies, contributing to sprint planning and daily stand-ups to ensure timely progress and delivery of project milestones.

Vichaar Labs PVT. LTD

Web Developer

- Integrated frontend features with RESTful APIs for flexible data fetching and real-time feed updates to enable an interactive User Experience.
- Developed and improved dashboard functions with React & JavaScript — performed for both performance optimization and cross-browser compatibility.
- Worked on the dashboard panel which was implemented using React. The main aim while doing this is to keep it as user friendly, intuitive and modern design wise.
- Used cPanel to deploy web applications, ensuring they were secure and ran smoothly.

Personal Project:

E-COMMERCE PLATFORM – *ARRIA*

Technologies: HTML, CSS, Bootstrap, JavaScript

Link: <https://lovely-pixie-a28b5a.netlify.app/>

Developed a responsive e-commerce platform with features such as product listings, search functionality.
