Bhubaneswar, Odisha | +917381788387 | manjeetsahu7381@gmail.com

EDUCATION

DRIEMS University, *B.Tech in Computer Science* | Cuttack, Odisha

- **CGPA:**8.9/10
- **Relevant Coursework:** Data Structure and Algorithms, Soft Skills, Operating Systems, Cloud Computing, Database Management Systems,

INTERNSHIP

Python Programming Intern – MotionCut

Nov – Dec 2023

- Built interactive text-based adventure game in Python, crafting immersive narratives and parsing user input for an engaging story experience.
- Employed best Utilized Python to construct a password generator, empowering users to safeguard their online accounts.
- Created a feature-rich to-do list app using Python and Django, increasing user productivity by 20%

Data Science Intern – Solar Secure Solutions

May- July 2023

- Build a movie recommendation system using collaborative filtering and content based filtering algorithm with Python libraries like Scikit-learn and Pandas.
- Leveraged ML techniques in python to analyze historical Bitcoin price data and build predictive models for price movement.

PROJECTS

Weather Web App

- Designed and implemented the user interface using HTML and CSS. Developed interactive JavaScript components to handle user interactions and display weather data. Integrated an external weather API to retrieve real-time weather data. Optimized the web application for performance and responsiveness. Conducted thorough testing to ensure the application's functionality and bug-free operation.
- Technical stacks used-: HTML, CSS, JavaScript, API integration.

Multi User Chat App

- Developed a real-time chat application using Python, leveraging socket programming techniques. The application allows users to connect to a central server and engage in instant messaging with other connected users. Utilized core Python concepts and libraries to create a simple yet functional chat system, enhancing proficiency in networking and asynchronous programming.

SKILLS

JavaScript, Java, Python, C++, MongoDB, Machine Learning, PyTorch, Deep Learning, REST API, AWS, Git, HTML5, CSS3, Django, MySQL.
