SKILLS

Languages: HTML, CSS, Javascript, TypeScript, Python, Java

Frameworks: ReactJS, NextJS, Tailwind-CSS, Redux, Framer-motion

Tools: Figma, Notion, Git, Vercel

Soft Skills: Time Management, Teamwork, Communication, Problem Solving, Leadership

PROJECTS

TABSTACKER

REACTJS, TAILWINDCSS, CHROME API

- Developed an efficient **tab management extension** using ReactJS, tailwindCSS, and Chrome Extension APIs. It offers a comprehensive solution for organizing and optimizing browsing sessions, leading to a more streamlined workflow and improved productivity.
- Implemented Google Gmail account login using **NextAuth Authentication**, streamlining user authentication process and ensuring secure access with Google credentials; **resulted in a 40% increase in user sign-ups**.
- Collaborated with a cross-functional team** consisting of a Product Manager, a Designer, and a Developer, effectively combining skills and expertise from different domains to create a user-centric and functional Chrome extension. View our portfolio at [tabstacker portfolio](#).

HOMEFINDER

REACTJS, TAILWINDCSS, FIREBASE, FRAMER-MOTION

- Developed a user-friendly **platform for listing houses for rent or sale**, providing property owners with a seamless experience to showcase their properties.
- Streamlined property details input, **incorporating room configuration, parking facilities, and rental or sale price**, resulting in a 30% reduction in data entry time and increased listing accuracy.
- Enabled **high-resolution image uploads** to enhance property presentations and captivate the attention of potential tenants or buyers.

LIFT SIMULATION

JAVASCRIPT, CSS, HTML

- Simulated Elevator functionality using HTML, CSS, and JS. **Where lifts and floors can be generated from user input, and lifts will move between floors** based on button clicks as in real life.
- Efficiently managed elevator requests, simulating lifelike functionality such as **door opening and closing times** and lift movement at **2 seconds per floor**, ensuring a realistic user experience.
- Preserved and served requests made while lifts are busy, ensuring **efficient handling of concurrent requests** when any of the lifts are free.

EXTRA-CURRICULAR ACTIVITIES

- Actively contributed to **open-source initiatives** such as Hacktoberfest and GSSOC, collaborating with a global community of developers to enhance existing frameworks and co-create innovative solutions.
- Actively participated in the [LinkCollect](#) project, working on various aspects to enhance its functionality. Collaborated on the [SyntaxErreur](#) project, contributing to its development and improvement.
- Additionally, I actively engage in physical activities such as playing cricket and badminton.

EDUCATION

BTech in Electrical Electronics Engineering

KASIREDDY NARAYANREDDY COLLEGE ENGINEERING AND RESEARCH

June 2019 - July 2023 | CGPA: 7.0

Intermediate in MPC

IDEAL JUNIOR COLLEGE DILSUKHNAGAR

June 2017 - May 2019 | CGPA: 8.8

SSC

NEW CHAITANYA HIGH SCHOOL

March 2017 | CGPA: 9.0
