Portfolio- <https://najmirza.github.io/Mirza/>

PROFESSIONAL SUMMARY

Detail-oriented and performance-driven PHP Developer with over 2 years of hands-on experience in building scalable backend systems using Core PHP and Laravel. Skilled in developing and integrating RESTful APIs, optimizing MySQL databases, and implementing secure, modular, and high-performance web applications. Adept at collaborating within Agile development teams and delivering robust solutions that align with client and business requirements.

PROFESSIONAL EXPERIENCE

ZANTHIUM TECHNOLOGIES PVT LTD.
Backend PHP Developer

Rudrapur, Uttarakhand
FEB 2023- Mar 2025

- Engineered scalable and reusable backend modules using Core PHP and Laravel, improving deployment efficiency across 15+ enterprise projects.
- Designed and normalized relational MySQL databases, implementing advanced indexing strategies to reduce query execution times by over 60%.
- Developed and maintained RESTful APIs for seamless integration with third-party services and mobile platforms, supporting over 5,00 monthly users.
- Implemented PHPUnit-based automated testing frameworks, reducing post-release bugs by 40% and increasing QA turnaround.
- Built secure user authentication systems, reducing unauthorized login attempts by 40% across user accounts.
- Participated in code reviews, Agile sprints, and continuous integration processes to enhance code quality and team velocity.

UNION BANK OF INDIA
Business Facilitator (Contract)

Balichandrapur, Cuttack
2016-2023

- Advised and supported MSMEs in operational improvement, financial planning, and digital adoption through personalized consultations.
- Contributed to the bank's strategic development initiatives by collecting and analyzing local business data to inform policy recommendations.
