Summary/Objective

Passionate about IT with a focus on full-stack web developer seeking a dynamic role in an innovative company. Dedicated to creating seamless user experiences by integrating front-end and back-end technologies. Excited to join a collaborative team, expand my skills, and drive impactful results in a continuous learning environment.

Skills

- | | |
|--|---|
| ✚ Front-end Programming – HTML5, CSS3, JavaScript | ✚ API Handling – RESTful APIs, Axios, Fetch API, JSON, AJAX |
| ✚ Frameworks & Libraries – React.js, jQuery, Bootstrap, Material-UI, Cookies | ✚ Debugging Tools – Postman |
| ✚ Back-end Programming – Node.js, Express.js | ✚ Version Control – Git & GitHub |
| ✚ Databases – MongoDB, MySQL, Mongoose | ✚ IDE – Visual Studio Code |
| ✚ Build Tools – Webpack, Babel, NPM | ✚ Operating System – Windows |

Projects

Food App

Developed a comprehensive food ordering application using the MERN-stack. The app features user authentication provided by React Cookies, and menu browsing facilitated by React Router DOM. Users can add items to the cart, place orders from various restaurants, and make secure payments seamlessly.

Video Library

Designed as a seamless single-page application where the frontend magic is orchestrated by React, delivering a vibrant and interactive user experience. The backend, fortified by Node.js, Express.js, and MongoDB, ensures robust performance and effortless navigation. Users can explore a dedicated page to their favorite videos, making each interaction personal and engaging. Meanwhile, administrators have their own powerful interface to effortlessly add or delete videos.

Todo Web app

Embark on creating a dynamic to-do list application brimming with functionalities like effortless task addition, seamless editing. Employ a blend of React for single page. Bootstrap, Material-UI for attractive user experience. Node.js, Express.js, and MongoDB for API and store the appointment in database.

Education

- | | |
|--|--------------------|
| • Master Of Computer Application (MCA)
Trident Academy of Technology, Bhubaneswar Dec 2021 – July 2023 | CGPA – 8.43 |
| • Bachelor of Science(B.Sc)
Utkal University Aug 2017 – Sept 2020 | CGPA – 7.96 |
| • Intermediate(12th)
Bahugram Junior Collage April 2015 – Mar 2017 | 60% |

Training & Certifications

- I have completed 6 Months Certified **UI Full stack courses** from **Naresh i Technology**, Hyderabad.
- Certified From **Internshala** training for **Full-stack Web development** course.
- **Management Information System & Intellectual Property** (NPTEL Certified) – **IIT Kharagpur**.

Responsibilities

- Utilize expertise in Front-End technologies including HTML, CSS, JavaScript, and React to develop responsive and visually appealing web applications..
- Collaborate with back-end developers to integrate RESTful APIs and ensure seamless data flow and functionality.
- Demonstrate strong logical thinking to effectively solve complex problems and optimize user experience.
- Communicate effectively with team members, stakeholders, and clients to gather requirements, provide updates, and address any issues or concerns.
- Implement responsive design principles to ensure optimal performance across various devices and screen sizes.
- Stay updated with the latest front-end technologies and industry trends to continuously improve development skills.
