SUMMARY

Results-oriented Software Engineer with 3+ years of experience in software development, cloud solutions, and DevOps practices. Skilled in Python, Linux, distributed systems, and database management, with a focus on performance, scalability, and security.

EXPERIENCE

CORESTACK

CHENNAI, IN OCT 2021 – present

Software Engineer

- Developed, maintained, and optimized software solutions for cloud-based services.
- Applied scientific methods to analyze and resolve complex software engineering problems.
- Designed, implemented, and automated solutions to reduce operational overhead and improve system reliability.
- Monitored system alerts, triaged service-impacting incidents, and ensured adherence to SLAs.
- Led troubleshooting efforts to resolve production issues efficiently, ensuring service reliability and data integrity.
- Participated in software research, design, development, and maintenance, contributing innovative ideas and solutions.
- Designed and deployed CI/CD pipelines, leveraging Azure DevOps for seamless integration and deployment.
- Implemented best practices for security, availability, and scalability of distributed systems.
- Developed scripts using Python and Bash for process automation and cloud management.
- Collaborated with cross-functional teams including Development, QA, and Product Management to enhance system performance.
- Assisted in capacity planning, performance analysis, and demand forecasting.
- Maintained and updated technical documentation, runbooks, and user guides for system operations.

(Tech Stack: Python, AWS, Azure, OCI, DevOps, MongoDB, MySQL, Linux (CentOS, Ubuntu), Docker, GitHub, JSON.)

SKILLS

Programming Languages: Python, Bash, HTML, CSS, JavaScript..

Frameworks: Flask, Django, RESTAPI

Software Development: Agile Methodologies, Software Design, Object-Oriented Programming (OOP),

Cloud Technologies: Oracle Cloud Infrastructure (OCI), Amazon Web Services (AWS), Microsoft Azure.

DevOps & Automation: CI/CD Pipelines, Azure DevOps.

Databases: MySQL, MongoDB.

Operating Systems: Linux (CentOS, Ubuntu), Windows.

Version Control: Git, GitHub, Azure DevOps, Bitbucket.

Data Analysis & Libraries: Pandas.

EDUCATION

Samskruti College Of Engineering & Technology
Samskruti College Of Polytechnic

2018 – 2021
2015 – 2018
