Professional Summary

Full Stack Developer with 1.5+ years of professional experience in building scalable web applications and enterprise solutions. Skilled in Python, Django, Angular, SQL, and MongoDB, with hands-on expertise in Docker, RabbitMQ, Git and Azure Boards. Proven ability to deliver high-quality software by collaborating in Agile teams and integrating backend and frontend technologies for end-to-end solutions.

Technical Skills

- **Programming & Scripting:** Python, JavaScript, TypeScript
- **Frameworks & Libraries:** Django, Angular, Bootstrap, Material UI
- **Databases:** SQL, MongoDB
- **DevOps & Tools:** Docker, RabbitMQ, Git, Azure Boards

Work Experience

- **Associate Software Engineer (Full Stack Developer)**

Everest IMS Technologies Limited, Bengaluru | July 2024 – Present

- Developed and enhanced ITSM features of the Infraon product using Python (Django), Angular, and MongoDB.
- Contributed to ITIL-4 certification by building key ITSM modules (Incident, Change, and Problem Management).
- Designed and implemented RESTful APIs with Django, optimizing MongoDB queries to improve efficiency and response times.
- Delivered product features on schedule through Agile sprints using Azure Boards.
- Actively contributed to full stack development, integrating backend and frontend for a seamless user experience.

Projects

1. Infraon Product (Professional Project)

- Full stack development with Django + Angular.
- Implemented features for enterprise IT management, integrating RabbitMQ for real-time updates.
- Optimized MongoDB queries and implemented efficient data storage solutions to improve system performance and reliability.

2. AI Model for Hackathon (Hackathon Project)

- Built an AI app using Gemini API that learns from developer-written test cases to answer user queries.
- Automated Python script generation, documentation, and report downloads.
- Added workflow automation with a "Show Video" demo feature.

Education

- **Bachelor of Technology (B.Tech), BCET, Balesore, Odisha**

2020 - 2024

- Specialization : Computer Science Engineering
- Year of Graduation: 2024
- Cumulative GPA: 8.6

Internships

1. Frontend Development Intern at PXE, DRDO

- Led frontend design projects at PXE, DRDO, overseeing team efforts to create user-friendly interfaces using HTML, CSS, and JavaScript.
- Job Role : Team Lead

Achievements

- Secured 3rd Prize in Hackathon for developing an AI-powered application using the Gemini API.
- Awarded Best Player of the Tournament in Cricket.
- Recognized as the Best Volunteer in school.
