PROJECTS

- **TRANSPORT MANAGEMENT SYSTEM**

TMS is developed to automate transport operations like payment, booking orders, delivery reports, generating transactions receipt, etc. in a transport office. Users can use this system to computerise transport office work like billing, tracking payments, creating reports, etc.

- **GOQII BAJAJ ALLIANZ**

The page that is the tie-up of GOQii in Bajaj Allianz has changed the old page design of GOQii and converted it into a new page design.

- **TATA MG DASHBOARD**

The page that is the sponsor of GOQii in TATA MG APP has changed the old page of GOQii and updated the new page.

- **PATIENT MANAGEMENT SYSTEM
DASHBOARD**

New web page design.

- **DOCTOR DASHBOARD**

New web page design.

- **AC MAINTENANCE**

New web page design.

- **VISO PARTNER & VISO EVENT**

Resolved UI alignment issue on partner dashboard and improved navigation responsiveness for an enhanced user experience. Fixed a bug causing intermittent display errors on partner profiles, ensuring consistent and smooth interactions.

- **BSI WEBSITE**

I specialize in developing BSI websites on WordPress, featuring three distinct products. Leveraging my skills in WordPress customization, I create user-friendly and visually appealing websites that effectively showcase and promote the three products. From seamless navigation to engaging design, I ensure a compelling online presence for each product on the BSI platform.
