CAREER OBJECTIVE

Detail-oriented and results-driven Backend Developer with 2 years of professional experience in designing, developing, and maintaining scalable and secure web applications. Proficient in Spring Boot, Spring Security, JPA, REST APIs, SQL, and React.js, with hands-on experience in building efficient, high-performing backend systems and responsive, user-friendly frontends for HRMS and ERP projects. Seeking to leverage my expertise in full-stack development, API design, and UI integration to contribute to a dynamic team, optimize system performance, and deliver robust digital solutions that enhance user experience and meet business objectives.

TECHNICAL SKILLS

Web Development: JavaScript, React.js
Web Technologies: HTML, CSS
Backend Frameworks: Spring & Spring Boot, Hibernate
Programming Languages: Java
Data Base: MySQL, Oracle SQL
Cloud Platforms: AWS (EC2, S3, RDS, IAM)
Version Control: Git, GitHub

EDUCATION

+3 - Bachelor of Science	Kishorenagar Degree College, Cuttack (2016 -2019)
+2 - Council of Higher Secondary Education	Ballavidevi College, Cuttack (2014 – 2016)
10th - Board of Secondary Education	Surendranath BidyaPitha, Cuttack (2014)

EXPERIENCE

Full Stack Developer	
Appticode PVT LTD, Bhubaneswar	Apr 2024 – Present
- Contributed to the planned and development of HRMS, Property Management, ERP Manufacturing, and E-commerce applications. - Developed scalable backend services using Spring Boot, implementing RESTful APIs for core business modules. - Implemented authentication and authorization using Spring Security and role-based access control. - Created and managed database schemas and relationships using JPA/Hibernate with MySQL. - Enhanced responsive and dynamic frontend components using React.js, integrating backend APIs for seamless user interaction. - Executed CRUD operations, validations, and exception handling to ensure data integrity and application stability. - Collaborated with cross-functional teams to understand requirements, fix issues, and enhance system performance. - Participated in testing, debugging, and optimization of application features to improve reliability and scalability.	

INTERNSHIP & TRAINING

Human Resource Management System - Java Internship	
Appticode PVT LTD, Bhubaneswar	Apr 2024 – Jun 2024
- Gained hands-on experience in HRMS and ERP enterprise application development. - Worked on core HRMS modules including employee management, attendance, leave management, and role-based access control.	

- Assisted in developing and integrating REST APIs, handling database operations using SQL/JPA.
- Participated in testing, debugging, and improving application performance and reliability.

Manufacturing ERP -Trainee

Appticode PVT LTD, Bhubaneswar

Jul 2024 – Dec 2024

- Trained on **Manufacturing ERP systems**, gaining understanding of end-to-end production and operational processes.
- Worked with modules such as **inventory management, production planning, procurement, and reporting**.
- Supported maintenance and enhancement of ERP features to align with manufacturing requirements.
- Learned enterprise application architecture, data flow, and best practices for scalable systems.

PROJECT

E-Commerce Application

Appticode PVT LTD, Bhubaneswar

Dec 2024 – Feb 2025

- Expanded key **e-commerce features** including product management, order processing, billing, and customer management.
- Applied reusable components to streamline workflows and improve application performance.
- Supported reporting and dashboard features for sales and customer insights.

Property Management System

Appticode PVT LTD, Bhubaneswar

Feb 2025 – May 2025

- Contributed to the development of **property listings, tenant management, rent tracking, and maintenance workflows**.
- Enforced responsive components to ensure smooth usage across devices.
- Upgraded overall system reliability and user experience through structured data handling.

Human Resources Management System

Appticode PVT LTD, Bhubaneswar

Apr 2024 – Aug 2025

- Developed and maintained HRMS modules including **employee management, attendance, leave management, roles, and access control**.
- Integrated backend services with frontend components to ensure smooth data flow and secure operations.
- Improved system usability and performance by implementing structured workflows and reusable components.

Manufacturing ERP System

Appticode PVT LTD, Bhubaneswar

Sep 2025 – Present

- Worked on **Manufacturing ERP modules** such as inventory management, production tracking, order processing, and reporting.
- Improved scalable application features to support manufacturing operations and real-time data handling.
- Collaborated with cross-functional teams to align system functionality

ADDITIONAL INFORMATION

- **Languages:** English, Hindi, Odia
- **Native Place:** Odisha

DECLARATION

I hereby declare that above statements are true to the best of my knowledge & belief Puja Sahoo.
