CAREER OBJECTIVE

Secure an accountable career chance to completely utilize my coaching and skills, while creating a big contribution to the success of the corporation.

EXPERIENCE

Software Developer at Bharat Electronic Limited (BEL) I worked as a Software Developer at Bharat Electronics Limited (BEL), where I contributed to Web Based Inspection Quality Assurance Software

Skillset: React js, Redux, Material UI, Hooks, JavaScript, CSS. Express JS, MongoDB

Total Year of Experience: 1.3

TECHNICAL SKILLS

- ReactJS development framework and tools
- RESTful API tools design and development
- CSS, HTML, JavaScript Languages.
- JSX, JavaScript Fundamentals +ES6, Node JS.
- Solid understanding and proficiency in MongoDB, Express.js, React.js, and Node.js, covering the essential aspects of the MERN stack.
- Node Package Management NPM, Redux, Git Repository.
- Knowledge of continuous testing, Troubleshooting, and Integration
- UI, Restful API, performance checking, documentation

ACADEMIC QUALIFICATIONS

COURSE	UNIVERSITY/BOARD	INSTITUTION	YEAR OF PASSING
BE(ISE)	Visvesvaraya Technological University	AJiet Mangalore	2022
DIPLOMA (CS)	Board of Technical Examinations	R.N.S Polytechnic Murudeshwar	2019
PUC	Department of Pre University	Govt.Pu college navunda	2016
SSLC	Karnataka secondary education examination board	Govt. High school Kirimanjeshwara	2014

PROJECTS

1 . Air Quality Predictive Analysis using Machine Learning (2022)

To predict and analyze the Air quality using Machine Learning , In this project, the Regression Analysis and Decision Tree technique is used for air quality forecast and analysis.

Technology Used: Python, Anaconda, Jupyter Notebook.

2. Ayush Hospital Information System(Technology Used: web technology)

It is based on the Defense of Ministry Hospital management which includes patient registration, out patient details, inpatient details, billing, laboratory, reports, doctor dashboard. It also tracks the patient health conditions.

Role & Responsibility: Frontend & UI development - using React js , React Hooks, Redux.

Technologies Used: React js, Node js

3 Web Based Inspection Quality Assurance Software(Technology Used: web technology)

It is a Defense of Ministry project that includes a variety of logins and supply orders, line items, and project details and each line item is inspected by a different officer.

Role & Responsibility: Frontend & UI development - using React js , React Hooks, Redux.

Technologies Used: React js, Node js

INTERNSHIP

Organization : Take It Smart

Duration: 2 months

Field of study: Full Stack Web Development Under React

CERTIFICATIONS:

- Easy Learning C++ for beginners from Udemy
- Python for everybody from Coursera,
- irjmets publication certificate on Air Quality Predictive Analysis Using ML

PERSONAL DETAILS

Nationality : Indian

Date of birth : 12/01/1998

Hobbies : watching movie, listening to music ,cricket.

Languages : English, Kannada

DECLARATION

I hereby declare that the information stated and furnished above are true and correct to the best of my knowledge and understanding.
