Summary

Experienced Python Developer with a focus on data engineering and application development. Skilled in designing and implementing robust data infrastructure, optimizing workflows, and driving insights for informed decision-making. Proficient in Python, Django, Flask, and data management technologies. AWS Certified with expertise in cloud computing solutions and services. Committed to staying updated with emerging technologies to deliver innovative and scalable solutions.

Work Experience

Sravathi AI Technology, Bangalore

May 2023 – current

Data Engineer

- Lead two major projects: Enterprise Data Warehousing (**EDW**) and Enterprise Application Development (**EAD**), leveraging **AWS** cloud services to enhance scalability and efficiency.
- Collaborated with Data Scientists to integrate AI models into web applications, utilizing AWS machine learning services such as **Amazon SageMaker**.
- Designed application, **APIs**, and database architecture, and developed **ETL** pipelines, optimizing performance and reliability by deploying cloud-native solutions on **AWS** infrastructure.
- implement cloud-based solutions, including setting up scalable compute resources using **EC2 instances**, managing storage with **S3 buckets**, and configuring networking components within a Virtual Private Cloud (**VPC**).
- Implemented Continuous Integration and Development (**CI/CD**) pipelines using AWS CodePipeline and AWS CodeBuild, automating build, testing, and deployment workflows for streamlined development processes.
- Developed secure **backends**, utilizing **AWS Lambda**, **AWS ECS**, and **AWS Fargate** to build scalable and resilient systems, showcasing logical thinking and problem-solving skills in adherence to Software Development Life Cycle (**SDLC**) principles.

Sravathi AI Technology, Bangalore

Nov 2021 – May 2023

Associate Data Engineer

- Designed and implemented User Interfaces (**UI**) using **React JS**, **HTML**, and **CSS**.
- Developed server-side logic and **APIs** using **Django Rest framework**.
- Managed databases (**MySQL**, **PostgreSQL**, **MongoDB**) for data integrity, performance, and security.
- Maintained and optimized company **websites**, ensuring smooth operation and optimal performance.

Sravathi AI Technology, Bangalore

Feb 2021 – Nov 2021

Data Engineering Intern

- Worked on **backend** and **frontend** development for the **User Management system**.
- Designed **UI** across multiple platforms.

Education

Fakir Mohan University, Balasore

2017 - 2020

Master in Computer Application

8.3/10 CGPA

Technical Skills

Languages: Python, JavaScript

Backend: Django, Django RestFramework, Flask

Frontend: React JS, HTML, CSS, Bootstrap

Clouds & Databases: AWS (Amazon Web Services), PostgreSQL, MongoDB, MySQL

Web Technologies: Docker, Socket.IO, Redis, Celery

Developer Tools: Git, PySpark, Postman, VS Code, GitHub, Pycharm, Linux
