Bhubaneswar, INDIA

[linkedin/pritismita](https://www.linkedin.com/in/pritismita)

Summary

- 1.11+ years of experience as a **Software Engineer** with expertise in **PHP, MySQL, Node.js, Angular, Express.js**, and **AWS**.
- Skilled in developing and maintaining **RESTful APIs** using **MVC architecture** to build scalable backend systems.
- Proficient in **Git** for version control, ensuring efficient code management and team collaboration.
- Hands-on experience with **CI/CD pipelines** and automated deployment using **Jenkins** and **AWS services**.
- Strong ability to work in **Agile environments**, collaborating with cross-functional teams to deliver high-quality software solutions.
- Competent in both **frontend** and **backend** development, focusing on performance optimization and user experience enhancement.

Experience

Software Engineer

JeevaOrganic (DBI360) (Dec 2022 - Present)

Associate Software Engineer – December 2022 – March 2024

- Assisted in full-stack development using **PHP, JavaScript, and Node.js**, contributing to both frontend and backend features.
- Improved system performance by debugging and troubleshooting code, reducing response times, and enhancing user experience.
- Collaborated with teams to ensure timely delivery.

Software Engineer – April 2024 – Present

- **Handled backend and API development**, ensuring seamless integration with frontend systems for optimal performance and user experience.
- Optimized deployment pipelines and mentored a junior developers on best practices and debugging.
- **Enhanced system architecture** optimizing database queries, resulting in faster processing times and improved system reliability.

Projects

Zyler ERP

Project Description:

- Contributed as a developer on the Zyler ERP project, focusing on backend development to streamline business operations.
- Implemented key features such as the **GRN(Goods Receipt Note) Process, Knowledge Base, and Logistics Dashboard**, integrating ERP with Material Requirements Planning (MRP) for optimized workflows.
- Ensured smooth data handling and functionality across various ERP modules, improving system reliability and user experience.
- Collaborated with cross-functional teams to integrate

complex backend solutions using **PHP cURL** and **Node.js** to meet diverse business requirements.

- Contributed to the delivery of a robust ERP system that reduced operational bottlenecks and enhanced workflow automation.
- Helped the company reduce manual processing time by 30%, leading to more accurate and timely decision-making.

Zyler MFG

Project Description:

- Designed, developed, and maintained both frontend and backend components of the Zyler MFG module, focusing on creating robust APIs using **Node.js**.
- Utilized **Angular** for frontend development and **MySQL** for database management, ensuring seamless communication between frontend and backend systems.
- Deployed the system on **AWS**, ensuring high availability, scalability, and performance of the manufacturing module.
- **Managed the integration of manufacturing processes**, ensuring the implementation of efficient and accurate production workflows that enhanced overall operational performance.

Trainee Consultant

Invincix Solutions Private Limited (Aug 2022 - Nov2022)

Responsibilities:

- Developed a news app to display articles and videos for **Invincix Solutions Private Limited**.
- Involved in **UI design, frontend development, and API integration** for real-time content updates.
- Collaborated with backend team to integrate data handling using **Node.js** and **MongoDB**.

Tech Used:

HTML, CSS, Bootstrap, JavaScript, jQuery, React JS, TypeScript, Angular, PHP, Node.js, Express JS, NPM, AJAX, MySQL, MongoDB, Tomato SQL, AWS, Git

SKILLS

Frontend development with HTML, CSS, JavaScript, React JS, Bootstrap, Angular; Backend development using Node.js, Express JS, PHP; Database management with MySQL, MongoDB, Tomato SQL; Cloud deployment on AWS; Version control with Git; API integration using AJAX, Node.js, Express JS

Education

Master of Computer Application

Indira Gandhi Institute of Technology, Sarang

CGPA: 8.9 Years: 2019 - 2022
