CAREER OBJECTIVE

Full Stack Developer focusing on the MERN stack, able to build real-world APIs, dashboards, and end-to-end web features. Looking to contribute to a team where I can ship production-ready code, improve performance, and take ownership of features from idea to deployment.

EDUCATION

B.Tech – Computer Science & Engineering Gandhi Engineering College, Bhubaneswar

Expected Graduation: July 2026

Senior Secondary (XII), CHSE Board – GPA: 81.00%

Secondary (X), BSE Odisha – GPA: 76.00%

SKILLS

Frontend: React, JavaScript (ES6+), HTML5, CSS3, Tailwind, UI/UX	Backend: Node.js, Express.js, REST APIs, Java	Database: MongoDB
	Tools: Git, GitHub, VS Code, Postman	Other: DSA in Java, OOP Concepts, Responsive Web Design

PROJECTS

1. Full stack weather app

Tech Stack: MERN (React, Node.js, Express, MongoDB)

Built a full-stack weather app with React frontend and Node/Express backend, integrating live API data and MongoDB for storage.

2. Smartphone Compatibility Checker

Tech Stack: MERN (MongoDB, Express, React, Node.js)

Built a web app that compares smartphone specifications using React components, reactive forms, and data filtering.

3. Pokédex App

Tech Stack: HTML, CSS, JavaScript

Developed a Pokédex that fetches Pokémon data using PokéAPI, with features like responsive design and dynamic search functionality.

INTERNSHIPS

Infosys Springboard Virtual Internship 6.0

- Enhanced collaboration, and technical proficiency through structured modules
- Applied programming, problem-solving, and analytical skills in real-world case studies
- Gained hands-on exposure to project workflows, teamwork, and professional practices

Angular Developer Intern – Glassiersoft Technologies

- Built and maintained Angular modules, reusable components, and feature-level routing.
- Integrated REST APIs and optimized data handling with services and interceptors.
- Worked on backend tasks using Node.js/Express for API development and troubleshooting.
- Collaborated using Git for version control and feature-branch workflow.

Graphic Design Intern – Innotech

- Designed creative visuals using Canva for digital platforms
- Contributed to the branding and promotional content
- Coordinated with content and development teams

CERTIFICATIONS

- Human-AI Collaboration Winner – College TechFest
- Web Development – Apna College
- DSA in Java – Apna College,
- Angular Developer – infosys springboard
- College Activities: Coordinated multiple tech events during college TechFest
