PROFILE

I want to pursue a career in an organization that inspires me to perform to my full potential and contribute to its growth. I aim to utilize my analytical and technical skills to achieve both organizational and career goals. Bringing 2.5 years of experience at **SimpleeKare** and 1.3 years at **Aarav Infotech India Pvt Ltd** working on website development and WordPress support projects, including gathering user requirements, developing and debugging code, and enhancing designs. Experienced in WordPress maintenance, plugin and theme troubleshooting, website optimization, security, and performance improvement. Technically proficient and analytical problem solver with a calm and focused approach.

WORK EXPERIENCE

WAS Engineer

Aarav Infotech India Pvt Ltd

Jan 2025 - Continue

- Provided technical support and maintenance for WordPress websites, ensuring optimal performance and uptime.
- Diagnosed and resolved website issues including plugin conflicts, theme errors, and server-side problems.
- Managed WordPress updates including core, plugins, and themes while maintaining site stability and security.
- Implemented website performance optimization techniques such as caching, image optimization, and database cleanup.
- Monitored website security and resolved vulnerabilities, malware issues, and spam attacks.
- Performed website backups, migrations, and restorations using manual and automated tools.
- Worked with PHP, HTML, CSS, and JavaScript to debug and enhance website functionality.
- Supported SEO implementation including meta tags, schema integration, and technical SEO fixes.

Web Developer

SimpleeKare Health Care

April 2022 - August 2024

- Provided front-end website design using **WordPress, HTML** and **CSS** and back-end development using **PHP**.
- Worked on wordpress domain: **footankleortho.com, simpleelabs.com, neuronpainclinic.com**
- Coded, debugged and monitored websites for **ConferClinic.com**
- Planned, coded and deployed web-based applications using **PHP, MySQL**.
- Developed **REST API** in PHP from back-end to integrate at front-end.
- Test the API using other tools.
- Configured and deployed existing and future **REST APIs**, integrating with third-party APIs.
- Designed user-facing elements to integrate with web APIs and server-side logic.
- Implemented client's requirements into creation of client frameworks as client interaction.
