OBJECTIVE

Motivated and detail-oriented individual seeking an entry-level IT software role to apply my problem-solving abilities and passion for technology. Eager to contribute to a collaborative team environment and work on innovative projects that drive success and growth.

PROJECTS

- **Fitness Web Tracking**

Tools: [ReactJS, NodeJS, MongoDB]

June-2023 - Aug 2023

- **Developed a Fitness Web Tracking application** using ReactJS for a dynamic and responsive frontend experience.
- **Implemented Node.js** to manage server-side logic and create robust API endpoints.
- **Utilized MongoDB** for efficient data storage and real-time retrieval of user fitness data.
- **Integrated real-time tracking features** to enable users to monitor their fitness progress and set goals.
- **Provided detailed analytics and reporting** to help users analyze and improve their fitness journey.

- **CRUD Operation**

Tools: [Reactjs,]

November 2023

- **Create:** Built forms to input and submit new data, interacting with the backend API.
- **Read:** Developed components to fetch and display data, ensuring up-to-date content.
- **Update:** Created functionality to edit existing data through interactive forms, allowing users to modify and save changes to the backend.
- **Update & Delete:** Enabled users to modify or remove data, with real-time UI updates reflecting changes.
- **Integrated state management** and API calls to handle CRUD operations efficiently, ensuring seamless user interactions and data consistency.

- **Recipe Web App**

Tools: [HTML, CSS, JS]

December 2023

- **Developed a Recipe App** using JavaScript to enable users to browse, search, and view various recipes.
- **Implemented dynamic features** for managing and saving recipes, enhancing user interaction and experience.
- **Utilized MongoDB** for efficient data storage and real-time retrieval of user fitness data.
- **Integrated with a backend** to store and retrieve recipe data, ensuring persistent and up-to-date content.
- **Designed a user-friendly interface** for easy navigation and recipe management. .

SKILLS

- **Languages:** C, Java, Javascript, SQL, HTML, CSS
- **Technologies:** ReactJS, Redux, Redux Tool Kit, Basic of Data Structures, OOPS, Tailwind
- **Developer Tools:** Git/Github, Visual Studio Code
- **Field of Interest:** Application Development

EDUCATION

- **College of Engineering Bhubaneswar**

B.Tech

◦ CGPA: 8.31

Aug 2019 - Aug 2023

Bhubaneswar, Odisha

- **Jupiter Women's +2 Science higher secondary school, nayapali**

Intermediate

◦ Percentage: 65

June 2019

Bhubaneswar, Odisha

- **Binapani Sisu Bidya Mandir**

Marticulation

◦ Percentage: 86

May 2017

Bhubaneswar, Odisha

CERTIFICATIONS

- **Java Full Stack Jspider-Tranning Development and Center**
- **Full Stack Web Development Coding-Shuttle**

April 2024

Feb 2023
