PROJECTS

E-Commerce Site

MANGA BASED E-COMMERCE SITE

- Manga-based e-commerce site which is made using **React JS**, **NPM** packages, and **React Router**.
- This project has **multiple filter handling**, and multiple **routes** for different pages.
 - Log In, Sign In, Home, Cart, Wishlist, Checkout pages
- For the state management, I have used **useReducer**.

Social Media Site

MANGA BASED SOCIAL MEDIA SITE

- Social media sites like Twitter but only for manga users.
- This app is made using **React JS**, **Tailwind CSS**, **React Router**, and **NPM** packages.
- This project has **Authentication** for every user using Mockbee **API** calls.
- Different Routes for different pages. Some pages are:
 - Login, Sign in, Home, Explore, **Individual user page**, **Individual pages** for Posts.
