Profile Summary

Experienced software developer with a solid foundation from corporate experience and startup adaptability. With a strong background in full-stack application development, I've accumulated over one year and three months of experience, contributing to projects at both Cisco Systems in Bangalore and Pune, as well as the startup TACTIC. Proficient in both front-end and back-end technologies. Proficient in HTML, CSS, JavaScript, Typescript, Java. Skilled in using Angular, React.js, Git, MERN stack, SQL & Node.js for web development.

Work Experience

Software Developer at Tactic Money (Finave Technologies Pvt.ltd) (Remote)

Dec 2023 - Present (1.5 months)

Project: Automatic Trading Application using complex code logic

A Tactic is an emerging startup which aims at their product application which allows user to trade automatically. At Tactic, I'm at the forefront of cutting-edge technology, serving as a Software Developer with a primary focus on crafting seamless user experiences. Here, I wear the dual hats of frontend development with complete spectrum of UI/UX design of application.

Frontend Expertise: From designing intuitive interfaces to ensuring a smooth user journey, I'm dedicated to work on front-end using React with excessive knowledge on HTML, CSS, JavaScript, Typescript, Angular, React, Wordpress.

Wire framing and Prototyping: Creating wireframes and interactive prototypes to visualize and test design concepts.

User Research: Conducted user interviews, surveys, and usability studies to understand user needs and preferences.

Front end Software Developer at Cisco Systems India (Bangalore)

Dec 2022 - Dec 2023 (1 year 1 months)

Project: "WEBUI" - Enhancing User Interface for Switches and Routers

As a pivotal member of the "WEBUI" project team at Cisco's IOT Department, I contribute significantly to the successful execution and enhancement of user interfaces for switches and routers. My role encompasses diverse responsibilities across bug resolution, feature development, and digital automation.

Adding New Features & Feature Development:

Spearhead the development of an optimal user interface for the project's website, leveraging the Angular framework. Collaborate on the creation of backend functionality for new features, utilizing Node.js. Adapted the content based on product updates and user feedback.

Bug Resolving and Application testing:

Diligently identify and debug software bugs, employing analytical prowess to pinpoint optimal solutions.

Review code and provided optimal feedback. Employ Git version control, write product or system development code. Part of test Automation, Deployment and CI/CD.

Intern SDE at Shrinidhi Innotech Pvt Ltd

April 2022 - Nov 2022 (6 months)

Project: Front end Application Development

Engaged in collaborative efforts with cross-functional teams, including designers and fellow developers, fostering effective communication and teamwork throughout the project

Applied in-depth problem-solving skills to troubleshoot issues, participated in design reviews.

Played a key role in the development process, contributing to the design and implementation of features that align with the company's objectives.

Education / Courses

- **Qspider's Institute for Software Development& Testing** (Computer Science Course for 6 months)
- **Smt.Kashibai Navale college of Engineering** (B.Tech Mechanical Engineering (2019 -22)) **(9.3 CGPA)**
- **Government Polytechnic Pune** Diploma, Mechanical Engineering (2016 – 2019) **(Percentage – 81)**
- **VNS (Vidya Niketan School)** Eng Med,Pune 10th (2011 – 2016) **(Percentage – 92)**

Certifications

- **Cisco Certified Network Associate (200 – 301)**
- **Complete Web Development Course** - NIIT Pune
- **Agile Scrum Master Certification Training**
- **Java full stack & SQL Server** - QSpiders - Software Development Training Institute
- **AWS Certified Developer Associate**
- **Implement framework the DevOps way** – Simplilearn

Projects

- **Recipe App** - A dynamic app made using Angular which gives any Recipe with one click.
Skills Involved – Angular Routing, MVC, ngRx, Observables and RxJS, NGINX, dependency Injection.
Link - <https://github.com/Shubhz2508/Recipe-App>
- **Food Fusion** – A stylish and responsive Website named Restaurant App with React, featuring Material-UI for a polished design.
Skills Involved – React Router Dom, Props, JSX, Hooks, Responsive web design, building scalable applications.
GitHub Link - <https://shubhz2508.github.io/Restaurant-app/>
- **Portfolio** – A dynamic web portfolio crafted with HTML, CSS, and JS, showcasing personalized content and interactive features for an engaging user experience.

Skills

- **Programming Languages:** Java
- **Front-end development:** HTML5, CSS3, JavaScript, Typescript, React, Flux, Redux, Angular, AngularJS, Bootstrap, Wordpress.
- **Back-end development:** Node.js, Express.js
- **Operating Systems:** Linux/Unix
- **Database:** SQL (Postgres, MySQL, Oracle), NoSQL (MongoDB)
- **DevOps Tools:** CI/CD
- **Version Control Tool:** Git
- **Cloud Skills:** AWS
- **Testing:** Chrome Dev tools, Unit testing, Functional testing
- **Software engineering:** CI/CD, OOP, Scrum, Agile methodology, MERN stack
- **Technical Skills** –Networking, Big Data, IOT, JSON, XML, WordPress, Shopify, Rest APIs, RESTful, ES6, jQuery, NGINX, HTTPS, OAuth, JWT
- **Soft skills** – Collaboration, excellent problem-solving skills, exceptional communication, good documentation, Ownership, leadership, mentoring skills, effective task management, Analytical skills.
