Summary

Computer Science undergraduate specializing in Data Science with hands-on experience in full-stack web development and machine learning. Skilled in React, Node.js, .NET, and Python with experience building scalable, user-centric and AI-powered applications. Seeking software/web development roles to contribute to impactful products.

Education

GITA Autonomous College

B.Tech in Computer Science and Engineering (CSE-DS) CGPA: 8.78

May 2026

Bhubaneswar, Odisha

DAV Public School

Intermediate (Science, CBSE) 75.6%

March 2022

Jharsuguda, Odisha

DAV Public School

AISSE (CBSE) 91.4%

March 2020

Jharsuguda, Odisha

Technical Skills

Programming: JavaScript, Python, Java, C#

Frontend: React, Vite, Tailwind CSS, HTML, CSS

Backend/DB: Node.js, Express.js, .NET, MySQL

AI/ML: TensorFlow, Keras, PyTorch, Scikit-learn, NumPy, Matplotlib

Tools: Git, Streamlit, MoviePy

Projects

Recipe Management System | *HTML, CSS, JavaScript, Node.js, Express.js, MySQL, REST APIs*

2025

- Built a full-stack responsive web application enabling users to create, organize, and manage personalized recipes.
- Implemented secure authentication, user profiles with dietary/allergy preferences, and complete CRUD functionality.
- Designed advanced search and filtering with tags, ingredients, and categories for faster recipe discovery.
- Integrated Spoonacular API for live recipe data and developed RESTful APIs connecting frontend, backend, and database.
- Added ratings and reviews system to improve engagement and user feedback.

Timeline App (Accessible Web App) | *React, WCAG 2.2, ARIA*

2025

- Developed an accessibility-focused timeline platform with full keyboard navigation and semantic structure.
- Implemented WCAG 2.2 AA/AAA and ARIA roles to support users with visual, motor, and cognitive impairments.
- Optimized focus management and usability for inclusive user experience.
- Repository: github.com/Baishnabisahoo529/task1

AI Calendar | *.NET, C#*

2025

- Built an AI-powered smart calendar that interprets natural language inputs and auto-schedules tasks.
- Implemented conflict detection and automated event creation to streamline planning.

Sentiment Analysis | *Python, TensorFlow, Keras*

2024

- Built NLP models to classify reviews and social media text into positive, negative, and neutral sentiments.
- Trained and evaluated models on large datasets achieving high prediction accuracy.

Video Summarizer | *Python, PyTorch, Streamlit*

2024

- Developed an AI-based system to extract key highlights from long videos using computer vision techniques.
- Built an interactive Streamlit interface for upload, processing, and viewing summaries.
- Repository: github.com/Baishnabisahoo529/Video-Summarizer

Experience

Web Developer Intern

July 2025 – September 2025

LzyCrazy Pvt. Ltd.

Remote/India

- Built responsive web pages using React, Vite, and Tailwind CSS improving UI consistency across devices.
- Collaborated with designers and backend teams to implement scalable and accessible interfaces.
- Optimized performance and ensured cross-browser compatibility.

Additional

Languages: Hindi, English, Odia

Activities: Debates, Public Speaking, Exhibitions

Hobbies: Guitar, Reading

Certificates: DataArt JavaScript School, DataArt .NET School, AWS ML Introduction
