Trident Academy of Technology, Bhubaneswar

June. 2019 – April 2023

Bachelor of Technology in Computer Science and Engineering

Certifications

Full Stack Development

Internshala

Experience

Maison Technology Pvt Ltd, Bhubaneswar

Oct 2024 – Present

Web Development Apprenticeship

- Built responsive and dynamic web pages using HTML, CSS, JavaScript, and Bootstrap, ensuring cross-browser compatibility.
- Led the implementation of user-friendly designs to improve website functionality and user experience.
- Collaborated with the development team to troubleshoot and optimize front-end performance.
- Worked on live client projects, including [New Beginnings](#), [JP Construction](#), and [Green Growth](#).
- Learned and applied best practices for web development and responsive design techniques.

Tech Mahindra, Bhubaneswar

Jul 2023 – Apr 2024

Associate

- Handled customer queries and resolved issues related to orders, payments, and returns efficiently and professionally.
- Provided exceptional support via email and chat, ensuring high levels of customer satisfaction.
- Maintained accurate records of interactions and followed up to ensure timely resolutions.
- Collaborated with cross-functional teams to address escalations and improve service processes.

Projects

Event Management System | *Node.js, Express.js, MongoDB, JavaScript, HTML, CSS*

Dec 2024 – Jan 2025

- Developed a full-stack event management system enabling users to create, manage, and promote events. Implemented user authentication (JWT), event discovery, ticketing, and attendee engagement features.
- Designed an event management dashboard for organizers to track registrations, ticket sales, and communicate with attendees.

ShoppYGlobe E-commerce Platform | *Node.js, Express.js, React, MongoDB*

Nov 2024 – Dec 2024

- Developed a scalable backend using Node.js and Express.js, implementing RESTful APIs for authentication (JWT), product management, and cart functionality, ensuring seamless data handling and integration with MongoDB.
- Built a responsive and interactive frontend with React, Redux, and React Router, enabling smooth navigation, real-time updates, and a secure checkout experience.

Weather Application System | *JavaScript, OpenWeatherMap API, HTML, CSS*

Sep 2024

- Built a dynamic weather app using OpenWeatherMap API to fetch real-time data based on user input or location.
- Designed a responsive 5-day forecast with icons, animations, and optimized UI for better engagement.

Portfolio | *HTML, CSS, JavaScript*

Aug 2024

- Engineered a responsive portfolio highlighting skills, projects, and experience through an intuitive design.
- Optimized navigation and animations for seamless interaction and engagement.
