

Rudra Narayana Pradhan

Full Stack Developer

✉ rudrapradhan0916p@gmail.com ☎ +91-9937637972 🌐 github.com/RudraNPradhan

Enthusiastic Full Stack Developer skilled in front-end and back-end technologies including the MERN stack, Next.js, and PostgreSQL with Prisma ORM. Proficient in Typescript, TailwindCSS, Docker, and Monorepo/Turborepo. Experienced in building full-stack applications, deploying serverless backends with Cloudflare Worker and Hono, and managing sessions with NextAuth, cookies, and JWT. Familiar with basic programming in Python, C, and Java. Passionate about continuous learning and eager to contribute to development teams.

Project Experience

WalletPay

- Developed WalletPay, a comprehensive financial application utilizing TurboRepo, TypeScript, TailwindCSS, Prisma ORM, React.js, and Next.js. Integrated Docker for local PostgreSQL database management and NextAuth for secure authentication and session management using JWT.
- Leveraged Next.js capabilities to implement server-side rendering (SSR) and static site generation (SSG) for improved performance and SEO.
- Developed a supplementary Node.js and Express Bank Webhook server to facilitate real-time transaction notifications from external payment gateways.

Medium Serverless Backend

- Developed and deployed Medium, a serverless backend using TypeScript and Zod for schema validation, integrated with Cloudflare Worker runtime utilizing the Hono library for edge computing. Leveraged serverless architecture and edge computing techniques to ensure scalability and performance. Demonstrated advanced database management skills with Prisma ORM, ensuring efficient data handling and connection pooling for streamlined database interactions.

Education

Fakir Mohan University

- Bachelor of Science
- CGPA: 8.34

2023

Osmania University

- Master of Computer Applications
- CGPA: 7.5

2024

Skills

Programming Languages:

- JavaScript, TypeScript
- Basics of Python, C, and Java

Frontend Development:

- HTML, CSS (TailwindCSS)
- React.js, Next.js

Backend Development:

- Node.js (Express.js, Hono.js)
- Next.js

Database Management:

- MongoDB, PostgreSQL
- Prisma ORM

DevOps and Tools:

- Docker
- Monorepo/Turborepo

Additional Technologies:

- Websockets, Redis
- Git & Github
