Career Snapshot

Proficient in building scalable web applications, with a strong foundation in computer science and a keen eye for detail. Collaborative team player with excellent problem-solving skills and effective communication abilities.

Skill Set

- Backend Development: Proficient in designing and developing robust backend systems using **Python** along with the **Django framework**. Experienced in building and maintaining scalable **APIs** and microservices.
- Web Technologies: Expertise in developing web applications using **Django**, including **HTML** and **CSS** with **AI tools**. Competent in creating responsive and user-friendly.
- Database Management: Strong experience with **MySQL**, including database design, optimization, and complete query writing.

Technical Proficiency

- Programming Language: Python (Pandas, NumPy, other libraries), Java(Core with OOPS)
- Web Technologies: HTML, CSS, Django, API, Deployment
- Database: MySQL
- AI Tools: Open AI API(Chat GPT)

Project

Happiness Odisha (April 2024 - June 2024)

User Query Management System:

- Developed a web-based application using Python, Django, HTML, and CSS.
- Designed a user-friendly interface for query submission and tracking.
- Implemented scalable database solution using SQLite3.
- Demonstrated full-stack development and database management skills.

Signature (July 2024 - Present)

Employee Management System:

- Developed a web-based application for managing restaurant employees using Python, Django, HTML, and CSS.
- Implemented CRUD (Create, Read, Update, Delete) operations for employee data management.
- Utilized MySQL database for storing and retrieving employee information.

EDUCATION

Master's in Computer Application

Sri Sri University 2022 - 2024

BSc. in Information Technology and Management

Ravenshaw University 2019 - 2022

CERTIFICATIONS

- Python and Django with HTML
- Django Web Applications
- Core JAVA with OOPS
