PROFESSIONAL SUMMARY

Proficient Full Stack Web Developer with a strong command of HTML, CSS, Bootstrap, PHP, and PostgreSQL, currently advancing my skills through an internship at NIST University, Berhampur. Known for developing innovative and efficient web applications, I bring a blend of technical expertise and practical experience to drive project success and contribute to organizational growth. My passion for problem-solving and attention to detail ensures the delivery of high-quality digital solutions that meet and exceed business objectives.

WORK EXPERIENCE

Full Stack Web Developer,Dept. of IT NIST University,Berhampur,Odisha **Apr 2024 - Present**

- Projects 1 : The Employee Salary Slip System.
- Projects 2: Exam Result & Certificate Management System.
- Projects 3: Hostel Management System.

Full Stack Development Internship, Web Stack Academy,Bangalore **Jan 2024 - Mar 2024**

- HomelyHub project utilizes the MERN stack - MongoDB, Express.js, React.js, and Node.js - to develop a robust and dynamic platform for efficient home management and organization, providing seamless user experiences.

PROJECTS

Employee Salary Slip System using HTML,CSS,Bootstrap,PHP & PostgreSQL.

- Project Description : The Employee Salary Slip System is a web-based application designed to streamline employee salary management using HTML, CSS, Bootstrap, PHP, and PostgreSQL. It features capabilities for adding and viewing employee details, bulk data uploads, salary data management, and generating comprehensive salary and attendance reports. This system enhances administrative efficiency and data accuracy for HR departments and payroll administrators.

Exam Result and Certificate Management System using HTML,CSS,Bootstrap,PHP & PostgreSQL.

- Project Description : This project is designed to manage and streamline the examination process within an academic institution. It features a comprehensive module for viewing various exam results, including individual grades, certificates, and tabulation sheets, both branch-wise and session-wise. Additionally, the module facilitates the upload of critical examination data, such as gradesheets and certificates, using Excel sheets, ensuring efficient data management and accessibility for cleared students.

Hotel Management System using HTML,CSS,Bootstrap,PHP & PostgreSQL.

- Project Description : The Hostel Management System, which includes Admin, Inventory, and Student modules. The Admin module handles category, batch year, degree, hostel, room management, leave approval, and room allotment. The Inventory module tracks purchases, item details, and generates various reports. The Student module enables profile viewing, leave applications, and room requests, including tracking application statuses.

E-Library Management System using HTML,CSS,Servlet& MySQL.

- Project Description : An E-Library Management System is a web application developed with HTML, CSS, Servlets, and MySQL, designed to efficiently organize and manage digital library resources, including books, documents, and user information.

EDUCATION

• Master In Computer Application(MCA) from NIST University , Odisha.	Nov 2022 - July 2024
• Graduation from Nilamani Degree Mahavidyalaya, Rupsa , Balasore	Aug 2019 - July 2022
• Intermediate from Laxminarayan H S School, Balasore	June 2017 - Mar 2019
• Matriculation From Sidheswar High School, Balasore.	May 2015 - Feb 2017

TECHNICAL SKILLS

• HTML	• WORDPRESS
• CSS	• UI/UX Design
• JAVASCRIPT	• MySQL
• Bootstrap	• PostgreSQL
• Java	
• PHP	
• Servlet	

SOFTWARE DEVELOPMENT TOOLS

• Visual Studio Code	• Figma
• Apache NetBeans IDE	• Github
• Eclipse IDE	• AI Tools(Sketch2Code)

CERTIFICATIONS

• Successfully completed Java Training from Besant Technologies.
• Successfully completed Full stack Java Development from Kodnest.
• Successfully completed Young Java Professional from Infosys.
• Successfully completed Web Development from CodSoft.
• Successfully completed Full stack Web Development from Bharat Intern.
• Successfully completed Programming in Java from NPTEL.
• Introduction to Object-Oriented Programming with Java course from Coursera.
• Successfully completed Python(Basic) from HackerRank.

AWARDS/ACTIVITIES

• Topper in B.Sc(Physics) Department,(2022).
• Actively participated Workshop on Frontend Development using React organized by NIST.
• Workshop on GEN AI organized by GENAIPIONEER at NIST.
• Actively participated with NCC in college level.
• Actively participated with NSS Camp at Inchudi, Balasore.
• Workshop on AI organized by NXT WAVE at NIST.

DECLARATION
