Education

Government College of Engineering, Keonjhar Bachelor of Technology in Computer Science and Engineering CGPA: 8.6	2020-24
College of Basic Science & Humanities, Bhubaneswar CHSE (Class XII), Aggregate: 62%	2020
Kalinga Vidyapitha, Bhubaneswar BSE (Class X), Aggregate: 83%	2018

Skills

Languages: Java | Python | HTML | CSS | JavaScript | React.js | PHP

Databases: MySQL | Firebase

Others: Data Structures | Algorithms | OOPS | Graphic Design Tools | MS Excel

Soft Skills: Communication | Observation | Decision Making | Multi-tasking

Languages: Odia | English | Hindi

Subject of Interest: Artificial Intelligence | Data Analysis

Projects

Digi-Complaints (Online Complaint Management System)

A Web app for an organization where user's complaints and grievances of different categories are handled in purely digital and centralized manner.

- It's built using **React.js, JavaScript, Bootstrap** for User Interface, **PHP, Python** for back-end server & **Google Firebase** for Database purpose.
- Ensure customer delight through **end-to-end management** of complaints from in-take to assessing risks, regulatory impact and submissions, quality investigation, resolution, and continuous improvement.

Lyrics Extractor ([source code](#))

You can now get lyrics for a song just by passing in the song name without passing an artist name and this library will do the rest of the job for you.

- It is a system using **Python** where it will extract data from **online APIs**.
- It fetches, extracts and returns the song's title and song lyrics from various websites autocorrecting the song names for the misspelled names along the way using **requests** and **JSON** libraries.

Image Steganography

Hiding the text message in an image file. Encryption of the same message, so as to support more secure steganography. The decoding of the message, decryption and source message retrieval are also supported.

- In this project **LSB substitution** method is implemented and **DCT method** is discussed for image steganography. **Java** is used for coding.

Work Experience / Internships

Coursdeck | Graphic Design Intern | Nov 23' - Feb 24'

- Plans and illustrates concepts by designing rough layouts of art and copy regarding arrangement, size, type size and style, and related aesthetics.
- Conceptualizing visuals based on requirements. Creating posters, brochures, presentations and layouts using design software such as **Adobe Photoshop, Illustrator, Canva** etc.

The Sparks Foundation | Web Development Intern | Sep 21' - Oct 21'

- Worked on a project named **Basic Banking System** (A web application used to transfer virtual money between multiple users and also record the banking transactions/ activities).
- Stack used - Front-end: **HTML, CSS, Bootstrap & JavaScript** - Back-end: **PHP** - Database: **MySQL**
- Flow of the Website: Home Page > View all Users > Select and View one User > Transfer Money > Select receiver > View all Users > View Transfer History.

Certifications

- PCEP – **Python Essentials 1** | Cisco Network Academy - [Link](#)
- PCAP – **Python Essentials 2** | Cisco Network Academy - [Link](#)
- Data Analytics and Fundamentals** | AWS Training and Certification
- Data Science** Program | NIIT Foundation - [Link](#)
